The Governor serves as the chief administrator of the state and, in addition to other powers and duties, acts as Commander-in-Chief of all state military forces, makes appointments for vacancies of executive offices and memberships on boards and commissions authorized by statute, and has the power to grant pardons and commutations. As chief administrator of Kentucky, the Governor ensures that state government provides needed services to the citizens of the Commonwealth at minimum cost to the taxpayer.

The Governor serves as the chief administrator of the state and, in addition to other powers and duties, acts as Commander-in-Chief of all state military forces, makes appointments for vacancies of executive offices and memberships on boards and commissions authorized by statute, and has the power to grant pardons and commutations. As chief administrator of Kentucky, the Governor ensures that state government provides needed services to the citizens of the Commonwealth at minimum cost to the taxpayer.

The Lieutenant Governor is a constitutional officer elected for a term of four years and shall be eligible for election to the next succeeding term. Among the duties assigned, the Lieutenant Governor is to assume the duties and responsibilities of the Office of the Governor should the Governor be impeached or removed from Office, die, fail to qualify, resign, or be unable to discharge the duties of that office. KRS 11.400 describes additional duties and responsibilities for the Lieutenant Governor including serving on various boards and commissions, serving on Kentucky delegations to several interstate compact commissions, and appointing members to various boards. The Kentucky Constitution was amended effective November, 1992, mandating that the Governor and the Lieutenant Governor be elected jointly. As a result, the appropriations for these two offices have been combined.

The Secretary of the Cabinet develops and implements the major program decisions for the Executive Branch of government. As part of these duties, the Secretary of the Cabinet oversees the administration of the various cabinets and agencies of state government. This role promotes cooperation and coordination among all agencies and programs of state government. Included as part of the Secretary of the Cabinet's budget is the Governor's Office for a Drug-Free Kentucky. The Governor's Office for a Drug-Free Kentucky is responsible for coordinating alcohol awareness and other drug abuse awareness efforts statewide.

The Kentucky Department of Veterans Affairs (KDVA) established by KRS 36.300, was created to assist veterans and their families in applying for federal, state and local veterans benefits. The KDVA also provides assistance in the presentation, proof and establishment of all claims, privileges, rights and other benefits available from national, state and/or local government agencies. House Bill 90, passed by the 1996 General Assembly, established the Department of Veterans' Affairs and attached the new department to the Office of the Governor. This eliminated the Kentucky "Center for Veterans' Affairs" which was a division in the Department of Military Affairs. Kentucky's 360,000 veterans are supported by a cooperative network of Veterans Benefits Field Representatives, volunteers, and personal service contracts with major veterans organizations.

The 1996 Regular Session of the General Assembly moved the Military Affairs Commission (KRS 154.12-203) from the Economic Development Cabinet to the Office of the Governor. The commission serves in an advisory capacity to the Governor, the General Assembly, the Kentucky Congressional Delegation and other appropriate government officials. This commission is designed to continue state government's support of the U. S. Military's widespread presence in Kentucky and to recognize its contribution to the economy and well-being of the Commonwealth. Among the installations and operations eligible for support are: Fort Knox, Fort Campbell, Louisville Naval Ordnance Station, Bluegrass Station in Lexington, National Guard and Reserve operations throughout the state, and Bluegrass Army Depot in Richmond.

Attached to the Governor's Office is the Coal Marketing and Export Council (KRS 154.12-250). The Council provides direction to the Governor in marketing efforts targeted to increasing opportunities for Kentucky coal. KRS 132.020(9) directs that \$400,000 each year from the property tax on unmined coal be paid to the Council for the purpose of public education of coal related issues.

In addition, the Kentucky Council on Domestic Violence was created by Executive Order in January 1996. On December 9, 1997 this council was renamed the Governor's Council on Domestic Violence. This council is responsible for planning, implementation and direction of legal and human services systems of community support and services concerning issues related to domestic violence. The council was established to address the need to increase the efficiency and accountability of state and community systems responsible for the provision of services to domestic violence victims. The 1996 General Assembly funded the Office for Sexual and Domestic Violence in the Governor's Office. The missions of both the Governor's Council on Domestic Violence and the Office for Sexual and Domestic Violence are to strengthen and support the response of all Kentucky communities in their efforts to provide protection and intervention to victims of domestic violence.

Also attached to the Governor's Office is the Kentucky Appalachian Commission (KAC). This commission, originally created by Executive Order in October 1995, exists for the purpose of developing a comprehensive plan for the Appalachian Region of Kentucky in the context of development planning for the Commonwealth as a whole. The goal of the commission is the unification of resources from both public and private sectors to achieve sustainable economic development and an improved quality of life in the region.

Policy

Included in the Budget of the Commonwealth are recurring General Fund dollars to fund ongoing support and program direction for the EMPOWER Kentucky office and the new Chief Information Officer. This office currently is a component part of the Secretary of the Cabinet's budget funded almost exclusively from the one-time appropriations contained in Part X of HB 379 (the Appropriations Act). The EMPOWER Kentucky projects already approved by the joint executive and legislative Redesign Steering Committee are expected to require oversight throughout and beyond the upcoming biennium. In addition, the basic premise of the EMPOWER Kentucky program, which is a constant and continuing search for more effective and efficient ways

to deliver government services at the lowest possible cost to taxpayers of the Commonwealth, is expected to be a priority focus of Kentucky State Government into the next century.

Included in the Budget of the Commonwealth are additional General Funds in the amount of \$184,000 in fiscal year 1999 and \$192,000 in fiscal year 2000 to support the establishment of an Office for Early Childhood Development which will provide support and policy recommendations for programs serving children ages 0 - 5 years.

Included in the Budget of the Commonwealth are General Funds in the amount of \$310,000 in fiscal year 1999 and \$325,000 in fiscal year 2000 to replace no longer available federal funds for the Kentucky Appalachian Commission. Additional General Funds for this program in the amount of \$200,000 in each year of fiscal biennium 1998-2000 are also included to deliver community development plans.

Included in the Budget of the Commonwealth are additional General Funds in the amount of \$303,000 in fiscal year 1999 and \$292,000 in fiscal year 2000 to support four additional staff in the Department of Veteran's Affairs in order to support ongoing operations with a minimal full-time staff.

The primary responsibility of the Governor's Office for Policy and Management is to assist the Governor and the Executive Cabinet by providing coordination and analysis for policy formulation, state management, budget preparation and execution, and a variety of related financial processes. The Office provides this assistance by serving as staff to the Governor, Secretary of the Cabinet, and the Secretary of the Finance and Administration Cabinet. The Governor's Office for Policy and Management assists the Governor in the preparation of the "Executive Budget," the overall financial plan for state government, for submission, review, modification, and approval by the General Assembly. The preparation of the budget includes the transmittal of information and necessary forms to state agencies, assisting those agencies in the preparation of their budget requests, reviewing the requests, and making subsequent recommendations to the Governor. Following the approval of the state's financial plan and its enactment into law by the General Assembly in the form of an appropriations act, the Governor and all Executive Branch agencies are assisted in the execution of the plan through the implementation of appropriations, monitoring of agency expenditures, review of program activities, and monitoring of program performance.

Policy

The Budget of the Commonwealth includes \$150,000 in fiscal year 1999 and \$150,000 in fiscal year 2000 for two new permanent full-time positions and the related operating costs.

The State Planning Fund is a central source of funds available to provide support for statewide planning projects designed to improve the delivery of government services. Under Chapter 147 of the Kentucky Revised Statutes, overall planning and development functions are a responsibility of the Governor's Cabinet. KRS 147.075 delegated these functions to a Cabinet committee, designated as the State Planning Committee, which fulfills this responsibility through its management of the State Planning Fund. The State Planning Committee includes the Governor, representatives from the various program cabinets, and the State Budget Director. The Governor serves as the Chairman of the Committee and the State Budget Director serves as its Secretary. In addition to the State Budget Director serving as Secretary, the Governor's Office for Policy and Management has the responsibility to review proposed planning projects, to make recommendations for funding to the Governor and the other members of the State Planning Committee, and to provide staff support to the Committee.

The Secretary of State is the constitutional officer entrusted with filing, maintaining, and preserving the important documents and records of the Commonwealth. The Secretary also keeps the Seal of the Commonwealth and affixes it to all communications and commissions issued in the name of the state. The Secretary of State consists of two units, General Administration and Restoration of Land Grant Books.

The objective of the Restoration of Land Grant Books program is to preserve Kentucky land grant records and fulfill daily requests for copies of those records. The restoration process consists of indexing, deacidifying, laminating, and bonding, thus safely preserving Kentucky's original land grants.

The General Administration unit consists of three programs: General Administration and Support, General Operations and Kentucky Business Law, and Limited Liability Companies.

The General Administration and Support program is responsible for central policy research, planning, and implementation. The program also prepares and records official documents for the Governor and implements election laws pertaining to the Secretary of State.

The General Operations and Kentucky Business Law is responsible for the administration and incorporation of businesses, both domestic and foreign, profit and non-profit, including the administration of documents of merger, dissolution, name changes, and certain stock matters. The program administers Kentucky's Notary Public Law, Kentucky's Uniform Commercial Code Law, laws regarding the service of summonses and complaints, and laws pertaining to trademarks and service marks. This program also issues commissions, pardons, commutations, extraditions, and the registration of trademarks.

The Limited Liability Companies program is responsible for being the filing officer for limited liability companies and registered limited liability partnerships. These companies and partnerships must file articles of organization with the Secretary of State. They must also file any amendments, mergers and dissolutions. This program was established by Senate Bill 184, which was passed by the 1994 Kentucky General Assembly. Operations began on July 15, 1994.

The State Board of Elections administers the election laws of the state and supervises the registration and purgation of voters within the state. The Board is responsible for canvassing returns, certifying successful candidates, maintaining the statewide list of registered voters, and implementing legislation relating to campaign finance reform.

The Board is directed by the Secretary of State, an ex officio member, with other members appointed by the Governor.

Policy

Included in the General Fund appropriation is \$2,801,500 in fiscal year 1999 and \$2,835,000 in fiscal year 2000 to pay the state's share of county election expenses and the state's share of voter registration expenses. Pursuant to the Appropriations Act, any unexpended balance remaining at the close of each fiscal year shall lapse to the credit of the General Fund. Any amount that the state is required to pay in excess of the above amounts, for the purpose of reimbursing the county clerks for

voter registration expense, shall be deemed a necessary government expense and shall be paid from the General Fund Surplus Account or the Budget Reserve Trust Fund. Special elections and creation of additional precincts due to redistricting or reapportionment shall be deemed necessary governmental expenses and be paid from General Fund Surplus.

Included in the above General Fund appropriation is up to \$10,000 in each fiscal year for a reward program to deter election fraud and unlawful activities related to elections.

The Treasury Department is the central administrative state agency responsible for the receipt and custody of all revenues collected by state government, as outlined in Chapter 41 of the Kentucky Revised Statutes, and for the writing of all checks and disbursement of state funds.

The Treasury Department is headed by the State Treasurer who is a constitutional officer as provided in Section 91 of the State Constitution. The Treasurer also serves on the State Investment Commission. The Treasury Department reviews and records, for accounting purposes, all investment transactions of the Commonwealth.

The General Administration and Support Division provides management support for Treasury, including: fiscal control, personnel administration, and policy development and implementation. The three functions of General Administration and Support are information storage and retrieval, information systems and technology, and administrative services. The Division issues over 7,000,000 checks each year, reconciles the various Commonwealth bank accounts, reconciles daily with the State Depository, administers and records court-ordered withholdings, and produces wire transfers for state government.

The Disbursements and Accounting Division receives all funds of the Commonwealth including fees, grants, taxes, federal funds, and fees from officials in counties over 75,000 in population, as well as fees from various boards and commissions. This program also receives, balances, and deposits all withholdings, and all U. S. Savings Bond deductions from state agency payrolls. A computer analysis is maintained on daily receipts and disbursements, which subsequently is submitted to the Finance and Administration Cabinet for accounting posting.

The Abandoned Property program is responsible for administering the provisions of KRS Chapter 393 related to the Escheats Law. This program receives unclaimed property reports from holders and potential holders of unclaimed property, collects unclaimed property, pursues the location and collection of the property, and attempts to locate the rightful property owner.

Policy

The enacted budget reflects a General Fund replacement of \$166,500 in fiscal year 1999 and \$166,500 for fiscal year 2000 due to the discontinuation of the annual Cabinet for Families and Children payment for Treasury services.

Additional General Fund resources of \$150,000 for fiscal year 1999 and \$150,000 for fiscal year 2000 are provided for additional personnel in the enacted budget.

As Kentucky's chief law enforcement officer, the Attorney General performs a variety of legal, investigative and administrative duties on behalf of the citizens of the Commonwealth.

The Criminal Appellate Division represents the citizens of Kentucky and the victims of crime in all criminal appeals and other post-conviction proceedings in state and federal courts. The Division advises elected prosecutors on legal issues, assists in prosecutor training, reviews the merits of appeals or requests for certification of the law by prosecutors and participates in amicus curia efforts by other states.

The Consumer Protection Act, KRS 367.110 to 367.300, mandates that the Consumer Protection Division enforce the provisions of the Act that prohibit unfair, false, misleading, and deceptive acts or practices. The Division investigates consumer matters, mediates consumer complaints, promotes consumer education, and enforces statutes regarding anti-trust matters. The Division also serves as the staff to the Governor's Consumer Advisory Council, and operates the Health Spas and Cemeteries and Funeral Homes Programs, codified as KRS 367.905 and KRS 367.932 to 367.991.

The Special Investigations Division investigates certain specialized, primarily white-collar, criminal activity. The Welfare Fraud Unit investigates recipient fraud in the Food Stamp, AFDC, and Medicaid programs. The Public Corruption Unit was established in June of 1996 by the Attorney General to conduct fair, thorough, and impartial investigations into allegations of public corruption on the part of elected and appointed public officials and furnish the results of those investigations to the appropriate state or federal prosecutors for appropriate prosecutive action. The Food Stamp Trafficking Unit investigates illegal food stamp vendor trafficking.

The Special Prosecutions Division prosecutes criminal cases pursuant to KRS 15.190 to KRS 15.715. The Special Prosecutions branch assists local prosecutors in complex or sensitive cases, handles cases in which the local prosecutor disqualifies himself, and prosecutes thefts from the Commonwealth by employees or elected officials. In addition, the Division investigates and prosecutes election law violations and ethics law violations as referred by the Executive Branch Ethics Commission.

The Prosecutors Advisory Council Division performs administrative services for the Prosecutors' Advisory Council including 56 Commonwealth Attorneys and 120 County Attorneys. The Council is charged with preparation and oversight of the budget of the Unified Prosecutorial System and its continuing legal education and program development.

The Medicaid Fraud and Abuse Control Division investigates and prosecutes cases of Medicaid provider fraud pursuant to KRS 194.500 to 194.900 and KRS Chapter 205. The Division also investigates and refers for prosecutions, complaints of physical abuse at Medicaid facilities.

The Civil and Environmental Law Division represents the state's boards and agencies, issues formal opinions, represents state officials, elected prosecutors and the judiciary in legal proceedings, and intervenes in constitutional challenges to state statutes. In addition, the Division acts as the legal representative of the Uninsured Employers' Fund in all proceedings to enforce workers' compensation claims against or for the Fund.

The Victims Advocacy Division administers the victim advocate program and provides support services to every victim of crime whose case is handled by the Attorney General's Office. The Division assists local prosecutors who wish to establish victims' programs, and provides staff support to the Child Sexual Abuse and Exploitation Prevention Board and to the Child Victims' Trust Fund.

The Child Support Enforcement Commission is established pursuant to KRS 15.290. Under its mandate, the Commission advises the Governor on child support enforcement issues. It also serves as a forum to foster increased cooperation among the agencies involved in the delivery of child support services.

The Administrative Hearings Division provides hearing officer services to state agencies. It also oversees the entire hearings process for state government and provides training for hearing officers as required by KRS 13B.030.

The Office of Rate Intervention is responsible for representing the interests of Kentucky consumers before federal, state, and local rate-making and regulatory bodies or agencies in the areas of utilities and health care insurance.

Policy

General Funds are provided for the entire continuation and expansion/new program requests for the Attorney General's office.

Additional funds are provided in the amount of \$200,000 in each year of the biennium to establish a Victim Witness protection Program. (Criminal Justice Response Team Recommendation C-24.)

Additional funds are provided in the amount of \$109,000 in fiscal year 2000 for the replacement of an expiring federal grant from the Edward Byrne Memorial State and Local Law Enforcement Assistance Program for the "expedite death penalty post-

conviction litigation project.” The goal of the project is to bring to a conclusion those cases which have been pending in the state courts for a number of years on post-conviction review. The grant was to last four years and concludes at the end of fiscal year 1999.

Funding in the amount of \$60,000 in each year of the biennium is provided for more frequent cemetery and funeral home audits.

Funding in the amount of \$260,000 in fiscal year 1999 and \$273,000 in fiscal year 2000 is provided for the continuation of the health care rate intervention responsibilities of the Attorney General mandated by Senate Bill 343.

Funding in the amount of \$377,500 in fiscal year 1999 and \$396,000 in fiscal year 2000 is provided for the continuation of the Public Corruption Unit.

The funding for 15 additional victims’ advocates (\$247,000 in fiscal year 1999 and \$330,000 in fiscal year 2000) was transferred to the Unified Prosecutorial System budget per House Bill 321 along with current services funding of \$456,500 in fiscal year 1999 and \$480,500 in fiscal year 2000.

Pursuant to KRS 15.700, the Unified Prosecutorial System was established January 1, 1978, to encourage cooperation among law enforcement officers and to provide for the general supervision of criminal justice by the Attorney General, as chief law enforcement officer and chief prosecutor of the Commonwealth. Also, its role is to maintain uniform and efficient enforcement of the criminal law and administration of criminal justice throughout the Commonwealth.

The Unified Prosecutorial System is administered by the Prosecutors Advisory Council with the Attorney General serving as chairman. The Unified Prosecutorial System is comprised of the 56 Commonwealth's Attorneys and 120 County Attorneys for the purpose of prosecuting criminal cases in Kentucky's circuit and district courts.

Pursuant to KRS 15.725(2), the County Attorney attends the district court in the county and prosecute all violations of criminal and penal laws within the jurisdiction of that district court. In accordance with KRS 15.735, County Attorneys also serve as special prosecutors in cases where the regular elected prosecutor has been disqualified.

The County Attorney is statutorily responsible for handling felony cases until the case is transferred to circuit court. Misdemeanors, juvenile and traffic cases, warrant preparation, motions, investigations, and witness interviews must be completed by the County Attorney. The County Attorney frequently mediates local complaints; thus, many of the services provided may never appear on a court docket.

Policy

General Funds in the amount of \$685,500 in fiscal year 1999 and \$772,500 in fiscal year 2000 are provided for expanded staff allocations to counties where insufficient staffing has been determined. Current services funding from the General Fund is provided in the amount of \$67,000 in fiscal year 1999 and \$70,500 in fiscal year 2000 for victim advocate positions previously budgeted in the Office of the Attorney General. The restricted funds are adjusted to reflect the direct funding.

Additional federal funds in the amount of \$85,000 in fiscal year 1999 and \$89,000 in fiscal year 2000 are provided for Clark and Garrard Counties from the Violence Against Women Act grant, and Johnson County from a Victims of Crime Act grant for victim advocates.

General Funds in the amount of \$20,000 in each year of the biennium are provided for the Floyd County Attorney's rent and relocation.

Pursuant to KRS 15.725, the Commonwealth's Attorneys attend each circuit court held in the judicial circuit. The Commonwealth's Attorneys, except as provided by KRS 15.715, also have the duty to prosecute all violations of the criminal and penal laws which are tried in the circuit court. In addition, the Commonwealth's Attorneys have the primary responsibility within the judicial circuit to present evidence to the grand jury concerning such violations.

In accordance with KRS 15.735, the Commonwealth's Attorneys also serve as special prosecutors in cases where the regularly elected prosecutor has been disqualified.

The Commonwealth's Attorney program is made up of 56 elected Commonwealth's Attorneys, one for each circuit, and each having a staff. Fifteen circuits have full-time Commonwealth's Attorneys, with the remaining being part-time. The prosecution of each felony requires a thorough investigation which involves extensive research and trial preparation by the prosecutor. Witness interviews, motions, conferences, plea bargaining, case studies, and continuing legal education are a part of each prosecutor's responsibility in representing the Commonwealth and citizens of Kentucky as the state's attorney.

Policy

General Funds in the amount of \$267,600 in fiscal year 1999 and \$354,700 in fiscal year 2000 are provided for four part-time Commonwealth's Attorneys offices to convert to full-time effective January 1, 1999.

General Funds in the amount of \$367,000 in fiscal year 1999 and \$413,000 in fiscal year 2000 are provided for four additional permanent full-time and ten permanent part-time positions and the conversion of seven permanent part-time to permanent full-time and one "other equivalent" position to permanent part-time in circuits where insufficient staffing has been determined.

General Funds in the amount of \$247,500 in fiscal year 1999 and \$330,000 in fiscal year 2000 are provided for 15 additional victims advocates. Also, current services funding (General Funds) in the amount of \$389,500 in fiscal year 1999 and \$410,000 in fiscal year 2000 is provided for victim advocate positions previously budgeted in the Office of the Attorney General. Restricted funds have been adjusted to reflect the direct funding.

General Funds in the amount of \$12,000 in each year of the biennium are provided for rent for the Floyd County Commonwealth's Attorney.

General Funds in the amount of \$26,000 in fiscal year 1999 and \$27,300 in fiscal year 2000 are provided for an additional part-time assistant for the 14th Circuit.

Additional restricted funds in the amount of \$37,000 in fiscal year 1999 and \$48,500 in fiscal year 2000 are provided from Asset Forfeiture receipts for operating expenses.

Additional Victims of Crime Act federal grant funds for the 11th Circuit totaling \$7,500 in fiscal year 1999 and \$8,000 in fiscal year 2000 are provided for victims advocates.

The Auditor of Public Accounts is a constitutionally elected official charged with the responsibility for auditing all state agencies and county governments, pursuant to KRS Chapter 43. Statutory responsibility requires that the Auditor's Office audit the state general accounts, the accounts of all state agencies, all private and semi-private agencies receiving or handling state funds and all state revenue collections. Furthermore, the Auditor must examine the management and control of all institutions and public works in which the state has financial interest or legal power; the safe custody and proper accounting of all state property must be ensured, pursuant to KRS 43.050.

The Auditor's Office is responsible for assisting state and local officials in establishing and maintaining proper accounting records, internal controls, and administrative controls over public funds. In addition, requests from public officials, the general public, the Legislative Research Commission, and the Governor's Office are made concerning financial matters, program matters, special audits, and investigations.

Executive Order 97-01, effective May 16, 1997, reorganized the Auditor of Public Accounts into four programmatic areas: Administration, Division of Examination and Technology, Division of Financial Audit, and the Division of Performance Audit. Each new division more accurately represents the Auditor's Office programmatic needs.

The Administration area includes: the Office of the State Auditor, support staff, policy staff, and General Counsel; the Office of Planning and Management with the budget, fiscal, and personnel duties; and the Office of Quality Assurance and Consultation, which is responsible for the development of audit procedures, audit quality control, internal training, and external training.

The Division of Examination and Information Technology is responsible for internal technology systems, state and public entities, data processing systems, special examinations of complaints, and public investment analysis.

The Division of Financial Audit is responsible for financial audits of state agency transactions, pursuant to KRS 43.050; county officials such as fiscal courts, sheriffs, county clerks, property valuation administrators, county attorneys, circuit clerks, and special districts per KRS 43.070. The Single Audit Act of 1984 as enacted by the United States Congress is also one of the responsibilities for the Auditor of Public Accounts.

The Division of Performance Audit was established to conduct audits of public entities to increase the effectiveness of the delivery of services and to reduce the costs of service delivery to the public.

Policy

The enacted budget provides additional General Funds of \$442,900 in fiscal year 1999 and \$423,800 in fiscal year 2000 for personnel vacancies; concurrent restricted funds of \$362,000 in fiscal year 1999 and \$383,000 in fiscal year 2000 are also provided to fill personnel vacancies.

The enacted budget includes \$221,000 (\$211,900 in General Funds, \$9,100 in restricted funds) in fiscal year 1999 and \$299,600 (\$290,000 in General Funds, \$9,600 in restricted funds) in fiscal year 2000 for additional expenditures associated with pay equity, relocation, and operating expenditures.

The enacted budget includes \$344,000 (\$200,000 in General Funds, \$144,000 in restricted funds) in fiscal year 1999 and \$380,000 (\$200,000 in General Funds, \$180,000 in restricted funds) in fiscal year 2000 for additional performance audit staffing.

House Bill 321, Part IX, includes the new provision relating to EMPOWER Kentucky Audit expenses, "The Auditor of Public Accounts shall charge for any consultation, training, and technology upgrade expenses incurred because of EMPOWER Kentucky and shall be paid by the client agencies."

The Department of Agriculture, as defined in KRS Chapter 246, is headed by the Commissioner of Agriculture, a Constitutional Officer. In addition, the State Board of Agriculture, appointed by the Governor, acts as an advisory body to the elected Commissioner. The Department of Agriculture is divided into five service units:

The Office for Strategic Planning and Administration is responsible for personnel functions, financial operations, public relations, and technology systems.

The Office for Environmental Outreach reflects the Department's role of fostering understanding and cooperation between Kentucky's agriculture community and federal/state enforcement entities. This Office is responsible for conducting various pest and noxious weed control programs, enforcing federal/state laws and regulations pertaining to the control of pesticide use and application, and providing an avenue of discussion and negotiation between the regulator and those being regulated.

The Office for Consumer and Public Service directs programs which have a direct bearing on agricultural revenue. The Office conducts the hay grading program, certifies all sales made by solid weight or liquid volume, licenses all egg wholesalers, and inspects all amusement rides operating within the Commonwealth. Further duties include the distribution of commodity foods to qualifying institutions and individuals on behalf of the USDA.

The Office of the State Veterinarian is responsible for protecting the livestock industry pursuant to KRS Chapter 257. The Office formulates and regulates all disease policies and investigates all disease outbreaks.

The Office for Agricultural Marketing and Product Promotion develops and manages programs which promote Kentucky-produced agricultural products, including grading and inspecting of specific products and commodities and reporting of market news. Additional responsibilities include the research and development of new and/or expanded outlets for Kentucky's agricultural products, administration of the Kentucky logo labeling program, administration of the Shows and Fairs Promotion Division, and the regulation of the ginseng industry through dealer registration and export certification.

Policy

The enacted budget provides total additional General Funds of \$7,710,000 for fiscal year 1999 and \$3,027,500 for fiscal year 2000 for various Agriculture-related programs such as: personnel, Mexico Office support, the multi-faceted Agricultural Marketing Initiative, the Farm Safety initiative, fair and youth events, parasitic mite and honey bee research, the Purchase of Agricultural Conservation Easements (PACE) program, and animal attack control. Included in the above additional General Fund enacted budget, \$1,348,000 is provided for fiscal year 1999 and \$1,391,000 is provided for fiscal year 2000 to fund personnel vacancies.

The Agriculture Marketing initiative, as included in the additional General Fund enacted budget, is provided \$5,641,500 for fiscal year 1999 and \$916,500 for fiscal year 2000 for personnel, operating, grants, and loan expenditures associated with the initiative. General Funds not expended in 1999 are recommended to be continued into fiscal year 2000. Three agricultural development areas will be the primary focus of the Department of Agriculture's efforts: livestock/forage, vegetable/horticulture, aquaculture, and vineyard development.

- The Livestock/Forage initiative includes various elements to facilitate agricultural marketing of livestock in the Commonwealth. Grants for upgrading and developing processing facilities and producer loan programs encourage farmers to expand operations and provide enhanced processing in the state, adding value to the agricultural product. Further grant areas include rotational grazing systems, pasture watering systems, waste management incentives, and a dead animal disposal program. A portion of this initiative funds forage enhancement and education programs, along with specialized personnel and operating expenditures related to oversight of the programs. A Beef Cattle Market Development program, highlighted by a quality certification program for Kentucky cattle, is provided in this initiative.
- The Vegetable/Horticulture initiative provides vegetable grower grants on a group cost-share basis to acquire grading, packing, and cooling facilities for wholesale produce sales. This program provides funds to directly enhance the market value of Kentucky vegetables and persuade the state's farmers to participate in alternative crops. Further funding is provided in this initiative for agriculturally specialized personnel and operating needs, along with product promotion, product directories, and statistical analysis.
- The Aquaculture initiative provides a cost-share fund for producer groups to acquire the infrastructure needed to develop the aquaculture industry in the Commonwealth. Infrastructure costs, such as small fish processing facilities, a fresh water prawn nursery, cooperatively-owned fish harvesting equipment, and collection points for live hauler sales, are continued in this initiative, with further support for a state aquaculture plan, promotional materials, and on-site farm demonstrations.

- The Vineyard Development initiative includes specific General Funds of \$200,000 for fiscal year 1999 and \$200,000 for fiscal year 2000 for cost sharing match funds and General Funds of \$50,000 for fiscal year 1999 and \$50,000 for fiscal year 2000 to provide a Viticulturist position at Murray State University.

A new Farm Safety initiative is also included in the additional General Fund enacted budget to provide personnel and operating expenditures of \$75,000 for fiscal year 1999 and \$75,000 for fiscal year 2000. A statewide statistical database of farm-related injuries, a central contact center for safety information, and data compilation/reporting will be established in the Department of Agriculture.

The newly established Mexico Joint Trade Office is supported by the additional General Fund enacted budget for the Department of Agriculture at \$100,000 for fiscal year 1999 and \$100,000 for fiscal year 2000. As a joint partner in the international office, the Cabinet for Economic Development provides matching funds for the Mexico Trade office.

The enacted budget provides General Funds to maintain current services; included in the current services budget are funds to continue a number of important initiatives and program enhancements from the 1996-98 biennium such as:

- The Youth Tobacco Enforcement initiative, pursuant to KRS 438.330 is funded at an estimated \$500,000 for fiscal year 1999 and \$500,000 for fiscal year 2000. These General Fund amounts are based on an actual cigarette tax receipts formula; thus are subject to revision. The Department of Agriculture will continue to support the educational mission of this initiative through a cooperative agreement with the Department of Alcohol and Beverage Control, which handles the enforcement aspects.
- The commitment to Animal Diagnostic Laboratory operations is continued for both Murray State University at \$456,000 for fiscal year 1999 and \$456,000 for fiscal year 2000 and the University of Kentucky at \$370,000 for fiscal year 1999 and \$370,000 for fiscal year 2000.
- Regional University agriculture programs are provided \$800,000 for fiscal year 1999 and \$800,000 for fiscal year 2000 as included in the current services budget to be equally apportioned between the four universities.

Additional General Funds of \$95,000 for fiscal year 1999 and \$95,000 for fiscal year 2000 are provided for new fair, youth 4-H and FFA events, and other educational activities.

Additional General Funds of \$50,000 for fiscal year 1999 and \$50,000 for fiscal year 2000 are provided for funding of a honeybee and parasitic mite study by Kentucky State University.

The Purchase of Agricultural Conservation Easements (PACE) program is supported by the additional General Funds of \$400,000 for fiscal year 1999 and \$400,000 for fiscal year 2000. The PACE funding will be used to purchase agricultural easements, which protect prime farm land from development.

Additional restricted funds of \$50,000 are provided in fiscal year 1999 to both the Animal Control Advisory Board at \$25,000 and the Animal Control Trust Account at \$25,000 for the protection of livestock from animal attacks.

The Department of Agriculture is directed to conduct a study of the feasibility of creating regional agricultural marketing centers across the Commonwealth pursuant to House Joint Resolution 63. A special General Fund appropriation of \$20,000 for the biennium is provided to accomplish the study.

The Kentucky Aquaculture Task Force, pursuant to House Joint Resolution 72, is provided a special General Fund appropriation of \$20,000 for the biennium to develop a State Aquaculture Plan.

The Department of Military Affairs is the state agency responsible for all military matters and disaster and emergency service coordination in the Commonwealth. The Governor is constitutional Commander-in-Chief of the forces that are on duty in the state. He appoints the Adjutant General who commands the Kentucky National Guard (Army and Air), and directs and coordinates all programs of the Department.

The Department has the responsibility for organizing, equipping, training, and housing units of the Kentucky National Guard which may be called to duty by the Governor in the event of civil strife or disorder, or the occurrence of natural or man-made disasters.

The Department consists of these organizational units: General Administration and Support, Property Management, Guard Materials Management, Air Transport, Disaster and Emergency Services, and Bluegrass Station.

Policy

Included in the above appropriation is \$200,000 in fiscal year 1999 and \$300,000 in fiscal year 2000 for Disaster and Emergency Services County Offices.

Created by the 1982 General Assembly as a separate state agency through KRS 18A.045, the Personnel Board is composed of seven members, five who are appointed by the Governor and two of whom are classified employees elected by their colleagues. The Board serves in a quasi-judicial capacity and assists the Department of Personnel in the development and amendment of administrative regulations as they pertain to the classified service.

The Personnel Board administers the appeals process of applicants for classified positions and conducts hearings for any classified employee who is dismissed, demoted, suspended or otherwise penalized after completing a probationary period of service and for those unclassified employees who are dismissed, demoted, suspended or otherwise penalized for cause.

Policy

General Fund support in the amount of \$3,000 is provided in both years of the biennium for wide area network connection costs. General Fund support in the amount of \$12,500 is provided in both years of the biennium for additional operating expenses.

Part IX of House Bill 321 contains a language provision relating to Administrative Hearings Notice that reads "Notwithstanding KRS 13B.050(2), the Personnel Board shall send administrative hearing announcements by first class mail."

The Department for Local Government, pursuant to KRS 147A. 002, is an independent agency attached to the Office of the Governor. Its functions and the organizational structure were redefined on October 21, 1997, when Governor Patton signed Executive Order 97-1391. The order was ratified by the 1998 General Assembly with the passage of Senate Bill 154. The bill streamlined the department's administrative structure so that the agency might advance its goal to become a one-stop center for units of local government in Kentucky. In addition to the Office of the Commissioner, four Divisions were established:

The Division of Community Development administers the agency's grant management functions. The programs assigned to the Division include: Community Development Block Grant-Small Cities Component; Appalachian Regional Commission; Community Rivers and Streams; the Land and Water Conservation Fund and the Kentucky Trails Grant Program.

The Division of Support Services performs those administrative services necessary for the department to function in an efficient manner. The Division has responsibility for personnel administration, payroll, purchasing, financial management and budget preparation for the entire agency. In addition, the Division provides information technology support to the Department and local government units and funds and provides technical assistance to the Local Government Law Center.

The Division of Training and Area Development District (ADD) Services conducts training programs for local governments across the Commonwealth in conjunction with Kentucky's 15 Area Development Districts. The Division oversees the Joint Funding Administration (JFA) agreement. Through JFA agreement with the federal government over the 1996-98 biennium, the department annually distributed nearly \$4 million in state and federal funds to the Area Development Districts so that they might provide technical policy and planning assistance to local units of government.

The Division of Financial Services provides technical assistance on local fiscal matters. The Division is responsible for the management and distribution of the Local Government Economic Assistance Fund, the Local Government Economic Development Fund and the County and Municipal Road Aid Program. It carries out a number of statutory duties including the calculation of maximum compensation for elected officials; the dissemination, collection and compilation of uniform financial information from all cities, counties and special taxing districts; the establishment of the standard chart of accounts; and collection of annual audits and financial statements from all municipalities.

In accordance with Executive Order 96-1376, issued on October 11, 1996, oversight and policy relating to issuance of debt by local governments are now administered by the Department for Local Government. The order was ratified by the 1998 General Assembly with the passage of House Bill 348. These duties are housed in the Division of Financial Services.

The Commissioner's Office formulates policy that governs the direction of programs administered by the Department. The objectives of the Commissioner's Office include providing integration and control of all departmental programs and administrative concerns, establishing and maintaining a liaison with state and federal agencies that deal with each of Kentucky's 120 counties, 435 cities, 15 Area Development Districts and more than 1,400 special districts.

The Water Resource Development Commission created pursuant to Executive Order 96-1339, issued October 3, 1996 is administered through the Commissioner's Office. The order was ratified by the 1998 General Assembly with the passage of House Bill 347. It has the responsibility for designing a long-term strategic plan for development for Kentucky's water delivery system. Commission staff will develop a plan by which the Commonwealth will work cooperatively with units of local government to make clean drinking water available to every house in Kentucky by 2020. The plan will be prepared in a collaborative effort with Kentucky's fifteen Area Development Districts, the Public Service Commission, the Natural Resources and Environmental Protection Cabinet, the Kentucky League of Cities, the Kentucky Transportation Cabinet, and the Kentucky Rural Water Association. The master plan will be compiled through utilization of available data in developing a statewide geographic information system base map of available infrastructure.

The Flood Control Advisory Commission performs floodplain management activities and reviews and approves projects for the Flood Control Matching Program. In partnership with federal and local agencies, the matching program lessens flood damage losses by providing structural and nonstructural assistance to Kentucky communities. The fund ensures that matching funds required by the U.S. Army Corps of Engineers are available for vital projects. Measures undertaken since its inception include floodwalls, levees, high flow diversion channels, evacuation, early warning systems, floodplain mapping and the promotion of nonstructural methods of flood protection.

The Kentucky Appalachian Regional Commission, housed within the Governor's Office, will be supported over the biennium with general funds allocated from the Local Government Economic Development Fund (LGEDF). Kentucky has received a grant from the federal Appalachian Regional Commission for the last two federal fiscal years to support start up costs associated with the Kentucky Appalachian Regional Commission. The \$71,000 budgeted in state fiscal year 1999 is the amount that is projected to remain in the grant at the conclusion of state fiscal year 1998.

Policy

The 1998-2000 Budget of the Commonwealth includes debt service dollars, in the amount of \$478,000 in fiscal year 2000, needed to support the issuance of \$5 million in bonds in fiscal year 1999 to continue the Flood Control Matching Program this biennium.

A current year appropriation, in the amount of \$196,500 is provided for the remainder of fiscal year 1998 to hire staff required to fully implement the reorganization associated with Executive Order 97-1391. Recurring expenditures associated with the current year appropriation of \$278,500 in fiscal year 1999 and \$291,000 in fiscal year 2000 are included in the enacted budget.

Additional General Funds in the amount of \$1,100,000 in fiscal year 1999 are included to underwrite the statewide inventory of water suppliers, treatment and distribution systems. This is the first step in achieving the Governor's goal to bring potable water to all Kentuckians by the year 2020. The development of a computer system to hold this data is also accommodated in the enacted budget.

The enacted budget funds the new downtown revitalization program, Renaissance Kentucky. Its goal is to recognize and honor those cities that have maintained or restored their central downtown areas making them safe, vibrant, efficient and functional urban cores. Renaissance Kentucky will provide support and assistance on development strategies for those cities which want to improve their downtowns. It will complement, not replace, existing downtown redevelopment programs. Two million dollars in each year of the biennium are included to fund grants for city infrastructure and exterior facade improvements. An additional \$1 million in grants is included in each fiscal year to encourage the placement of underground utilities in cities.

Additional General Fund dollars totaling \$433,000 in each fiscal year is provided for the Joint Funding Administration (JFA) grant program to increase the level of state JFA funding to \$2.5 million in each fiscal year.

The Special Funds program includes: the Local Government Economic Assistance Fund (LGEAF), the Local Government Economic Development Fund (LGEDF), and the Area Development Fund. Under current law, quarterly transfers from coal severance tax revenues for these two programs are made after the annual \$19 million severance tax allocation is credited to the Workers' Compensation Funding Commission.

Policy

The Budget of the Commonwealth provides that \$1,026,000 in fiscal year 1999 and \$1,664,400 in fiscal year 2000 be set aside from coal severance revenues prior to the LGEAF and LGEDF quarterly allocations. These funds will be used to support the Osteopathic Medicine Scholarship Program. The scholarship program will provide eligible students grants equal to the difference between the prevailing amount charged for in-state tuition at the University of Kentucky and University of Louisville medical schools and tuition at the Osteopathic School of Medicine. Participants must be Kentucky residents and agree to render one year of service as a primary care physician in Kentucky for every year that they receive grants.

Local Government Economic Assistance Fund (LGEAF) — Pursuant to KRS 42.450-42.495, the 1980 General Assembly created the Local Government Assistance Fund (LGEAF) to return a portion of the coal severance and mineral severance taxes to local governments in areas where the minerals were extracted. These funds are used to strengthen and diversify the communities' economy and to improve the quality of life of their residents. Counties, and cities within those counties, that are involved in the production of coal and/or minerals such as natural gas, oil, stone, etc. are eligible to receive LGEAF payments. Likewise, counties and their cities affected by the transportation of coal are eligible to receive a portion of the returned severance taxes.

The coal severance tax program currently returns funds to 72 counties and approximately 318 cities at the end of each fiscal quarter. Quarterly allocations are made according to such criteria as population, income, the amount and distance coal is transported over local areas, and taxes collected from the county.

The minerals severance tax program currently returns funds to 100 counties and approximately 359 cities at the end of each fiscal quarter. In accordance with Kentucky statute, an amount equal to 50 percent of the taxes collected annually on the sale

and processing of minerals, exclusive of coal, is transferred into the LGEAF for subsequent allocation and distribution to local governments. Quarterly payments to counties are determined by the amounts of mineral taxes paid. Distribution to cities is based on relative population.

Current Kentucky law provides that an amount not less than 13 percent of taxes collected on the severance and processing of coal be transferred into the LGEAF for subsequent allocation and distribution to county and city governments. The enacted budget increases the minimum LGEAF allocation to 14 percent. The appropriation is determined using this rate.

Local Government Development Fund — Pursuant to KRS 42.458-42.495, the 1992 General Assembly created the Local Government Economic Development Fund (LGEDF) to return a portion of coal severance tax receipts to coal producing counties through a grant process intended to enhance industrial development. Under this program, funds are allocated quarterly to coal producing counties, but distribution to a county may occur only after approval of a grant application submitted by a county. Fund allocations to counties are made according to such criteria as coal severance taxes paid, surplus labor rate, relative mining earnings and relative mining employment.

The Department for Local Government is responsible for LGEDF financial management, accounting, fund allocation and reporting. The Cabinet for Economic Development reviews and approves the LGEDF grant applications and oversees those projects.

During the 1996-98 biennium, 18 percent of coal severance tax receipts were transferred to LGEDF. The 1998-2000 Budget of the Commonwealth increases the LGEDF allocation be increased to 21 percent in fiscal year 1999 and 24 percent in fiscal year 2000.

The 1994 General Assembly created the Kentucky Wood Products Development Fund (KWPDF) which currently receives five percent of the LGEDF. The fiscal year 1998 KWPDF budget provided \$200,000 to fund the East Kentucky Corporation and \$150,000 to underwrite the cost of the West Kentucky Corporation. Both entities are housed within the Cabinet for Economic Development. The enacted budget allots KWPDF a fixed \$916,300 in each year of the biennium prior to the allocation to the counties, rather than the previous five percent share. The enacted budget also provides \$450,000 and \$350,000 respectively to the East Kentucky and West Kentucky Corporation in each year of the biennium directly from the LGEDF prior to the county distribution.

Additionally, the enacted budget provided that prior to the county allocations, \$325,000 in fiscal year 1999 and \$320,000 in fiscal year 2000 be transferred to the Coal County Development Office from the LGEDF. The enacted budget includes \$510,000 in fiscal year 1999 and \$525,000 in fiscal year 2000 for transfer to the Appalachian Regional Commission, housed in the Governor's Office, prior to county allocations.

Notwithstanding KRS 42.4588(2) and (4), the fiscal courts of 20 coal producing counties enumerated on pages 10 and 11 of House Bill 321 are authorized to expend LGEDF monies for projects specified by the appropriations bill. Prior to the commitment to expend LGEDF funds, or the expenditure of these funds, projects must have prior written approval of the county Fiscal Court.

Pursuant to KRS 42.485, the continuing appropriation amount from fiscal year 1998 to fiscal year 1999 and from fiscal 1999 to fiscal year 2000 will equal the cash balance in the LGEDF and LGEAF accounts at the close of the preceding fiscal year.

Note: Since payments from the LGEAF and LGEDF funds to local governments are paid on a quarterly basis after collection of the taxes, fiscal year 1999 allocations include one quarterly payment from the last three months of fiscal year 1998 collections and three payments from collections made during the first nine months of fiscal year 1999. This process continues in fiscal year 2000 with that year including a payment from the last three months of fiscal year 1999 collections and three payments from the collections made during first nine months of fiscal year 2000.

Fiscal year 1998 expenditures are expected to be less than appropriated due to the January, 1998 revision of the coal severance tax estimate.

The amounts reflected above for the LGEAF and the LGEDF are calculated using January, 1998 revenue estimates and the enacted rate and transfer policy (see chart on following page).

Notwithstanding KRS 42.350, \$1 million is allocated from the General Fund to the Area Development Fund is each year of the biennium.

The Kentucky Commission on Human Rights, pursuant to KRS Chapter 344, investigates complaints of discrimination in the areas of employment, housing, public accommodation and credit based on race, religion, national origin, age, disability, familial status, sex, and smoking status. The Commission also endeavors to foster mutual understanding and respect through education, technical assistance, and report writing. The Commission is divided into four service units including General Administration and Support, Enforcement, Research and Information, and Legal Services.

General Administration and Support performs personnel and fiscal activities and serves as a liaison with the Governor's Office and legislators as well as other agencies in state government. The development of internal policy directives and legislative initiatives are also functions of this unit.

The Enforcement Branch consists of two sections: Employment and Housing. Employees assigned to these sections investigate complaints of discrimination filed in the areas of employment, housing, public accommodation, and credit transactions.

The Research and Information Branch provides technical assistance and education throughout the state to local citizen groups, employers, public accommodations staff, educational institutions, local human rights commissions, and government officials. The staff conducts seminars and workshops on such topics as sexual harassment, the Kentucky Civil Rights Act, cultural diversity, and the Americans with Disabilities Act.

The Legal Services Branch provides legal advice to inquiries, sworn complaints, and file closures. The legal staff takes depositions of witnesses, prepares legal briefs, and appeals.

The Commission on Women serves in an advisory capacity to state agencies, the Governor, the Legislature, and the private sector. It supports research on issues of interest to women, such as health care, spouse abuse, employment, and economic issues as well as sends mailings and newsletters to various organizations to promote women's interests.

Policy

The enacted budget includes a current year appropriation of \$65,000 in fiscal year 1998 to address budgetary shortfalls experienced in prior fiscal years.

The Kentucky Retirement Systems, which includes the Kentucky Employees Retirement System, the County Employees Retirement System, and the State Police Retirement System is administered by a nine-member Board of Trustees composed of the Secretary of Personnel, five trustees elected by the members of the three Retirement Systems, and three trustees appointed by the Governor of the Commonwealth.

Established by the 1956 General Assembly, the Kentucky Employees Retirement System (KERS) provides retirement benefits for officers and employees of the various departments and agencies of state government.

The County Employees Retirement System (CERS), established by the 1958 General Assembly, provides retirement benefits for elected officials of county fiscal courts and other employees of county government.

The State Police Retirement System (SPRS), created by the 1958 General Assembly, provides retirement benefits for all full-time officers of the Kentucky State Police who are appointed pursuant to KRS 16.050.

Policy

Additional restricted funds of \$378,100 in fiscal year 1999 and \$541,500 in fiscal year 2000 are provided for 24 additional staff to address expanding workload demands.

The Kentucky Kare Health Insurance Authority was created in April, 1997 through Executive Orders 97-146 and 97-238. Attached to the Finance and Administration Cabinet for administrative purposes and governed by an eight-member Board of Directors, the Authority's purpose is to administer the Commonwealth's self-funded Kentucky Kare insurance plans for all eligible participants. Originally authorized by the 1988 General Assembly to insure "state employees" - active state employees, local school district employees, local health department employees, and state retirees under age 65 - the 1994 General Assembly broadened eligibility for inclusion in Kentucky Kare to any branch or agency of municipal county government. At the same time, the health insurance reforms enacted during 1994 allowed any citizen of the Commonwealth to participate as a state employee for health insurance purposes; this eligibility was broadened again in 1996 to allow small group coverage when Kentucky Kare became a participant in the Kentucky Health Care Purchasing Alliance. The 1998 General Assembly enacted House Bill 315, which once again returned Kentucky Kare to its original mission of serving as a self-funded insurance vehicle available only to state employees.

Policy

Additional restricted funds of \$97,500 in fiscal year 1999 and \$102,500 in fiscal year 2000 are provided for two additional staff.

The primary role of the Registry of Election Finance is to assure the citizens of the Commonwealth of the integrity of the electoral process by making certain there is full public access to campaign financial data and financial disclosure reports and by administering the statutes pertaining to political campaigns and election financing. The Registry consists of two programs: General Administration and Support and the Election Campaign Fund.

The General Administration and Support program notifies all interested parties of the statutory requirements for reporting information pertinent to election campaign financing on a timely basis, and monitors this information for accuracy. Its second responsibility is to maintain an information retrieval system whereby information is made accessible to the public and publish a summary of election financial transactions.

As part of campaign finance reform, a program of partial public financing was established (KRS 121A.030) through which a participating slate of candidates for Governor and Lieutenant Governor may obtain matching funds based on a threshold amount generated through qualifying contributions. The laws also require that a slate which intends to accept public funds must agree to abide by a maximum expenditure limit of \$1.8 million for each election which shall increase or decrease in accordance with the consumer price index for all urban workers, and the Registry shall make that adjustment in a year in which a Governor and Lieutenant Governor are elected not later than the filing deadline for the primary election. Also, if no candidate receives 40% of the total votes cast in his party's primary, a runoff primary must be conducted 35 days following the date of the primary election.

Any amount in excess of \$1,000,000 in either fiscal year 1999 or fiscal year 2000 necessary to support the state share of gubernatorial campaign financing shall be deemed necessary governmental expense and shall be paid from the General Fund Surplus Account or Budget Reserve Trust Fund Account.

The 34 Occupational and Professional Licensing and Regulatory Boards and Commissions were created to safeguard the life, health, safety, and welfare of the people of the Commonwealth who avail themselves of the services licensed or regulated by the Boards. Appointed by the Governor, board members represent both industry and consumer interests.

The general objectives of the Boards and Commissions are: to examine and license all qualified applicants; to enforce the professional standards and regulations of the Boards as well as the statutes against unethical or illegal practices; to ensure compliance with licensure requirements; and to administer the programs of the Boards in an efficient manner. The Boards will operate solely from agency receipts to fulfill these objectives.

Two new Boards were established during the 1998 General Assembly: the Board of Certification of Fee Based Pastoral Counselors (House Bill 608) and the Board of Interpreters for the Deaf and Hard of Hearing (Senate Bill 37). The Boards will be attached for administrative purposes to the Division of Occupations and Professions, Finance and Administration Cabinet. Each Board will rely on appropriation increases in order to operate for the next biennium.

Policy

Several Boards and Commissions attached for administrative purposes to the Division of Occupations and Professions, Finance and Administration Cabinet, have higher enacted appropriations than requested figures for fiscal years 1999 and 2000. The enacted budget reflects an adjusted administrative fee charged to the boards assessed by the Division after the budget requests were submitted.

Additional funds are included for the following Boards:

Hairdressers and Cosmetologists - \$28,000 in fiscal year 1999 and \$30,000 in fiscal year 2000 to hire two additional Cosmetology Inspectors.

Medical Licensure - \$71,500 in fiscal year 1999 and \$75,500 in fiscal year 2000 to hire one Medical Inspector and one administrative support person.

Nursing - \$23,500 in fiscal year 1999 and \$24,500 in fiscal year 2000 to hire one administrative support person.

Real Estate Commission - \$81,500 in fiscal year 1999 and \$87,000 in fiscal year 2000 to hire one attorney and one administrative support person; \$10,000 in fiscal year 1999 for new furniture.

The Governmental Services Center, established by KRS 164.357, is responsible for the development, coordinating, content, approval, and implementation of all training, employee development, and related programs for state government.

The Office designs and implements career development programs for state government's managerial, professional, technical, and clerical employees and provides job-related training in management, data processing, technical, and clerical subjects.

Policy

The current receipts recommendation assumes a billing rate to affected agencies not to exceed \$16.44 per employee and \$94.24 per manager.

The Executive Branch Ethics Commission, established by Senate Bill 63 in the 1992 Regular Session of the General Assembly and operating under KRS 11A, is responsible for reviewing the personal financial status of the constitutional officers and major management personnel in state government to prevent conflicts of interest in state government. The Commission will also investigate any alleged violation of KRS 11A.

Appropriations Not Otherwise Classified (ANOC) is a grouping of appropriations not related to particular programs; however, each item within this category has been given program status so that expenditures can be budgeted and accounted for separately. It includes such items as court judgments assessed against the Commonwealth and prior year claims for legal obligations of the Commonwealth. Any expenditures over the above amounts that are required to pay the costs of items included within this classification are to be paid from the General Fund Surplus account as a Necessary Government Expense.

Although separate budget presentations are included elsewhere for the Judiciary and the Unified Prosecutorial System, the ANOC category will still include the employer's share of social security, retirement and workers' compensation costs for master commissioners, and workers' compensation costs for county court clerks, sheriffs, and jailers in counties having a population of 70,000 or more.

The revised fiscal year 1998 appropriation includes individual contingent liabilities and judgments identified by the Office of the Controller in the Finance and Administration Cabinet. These appropriations shall not lapse but be carried forward into the 1998-2000 biennium. In addition, there is also reserved \$10 million of judgment appropriations in fiscal year 1999, with continuing appropriation authority into fiscal year 2000 should the full amount not be expended. Notwithstanding any other statute to the contrary, it is also recommended that, should any other Appropriations Not Otherwise Classified account have an insufficient appropriation in fiscal biennium 1998-2000, this account shall be used before any allocations are made from either the General Fund Surplus or the Budget Reserve Trust Fund. Any additional judgments or contingent liabilities for fiscal biennium 1998-2000, beyond the amount recommended, will be accommodated through the General Fund Surplus Account (unappropriated surplus) or the Budget Reserve Trust Fund, if necessary.

The Kentucky Veterans' Center, located at Wilmore in Jessamine County, is a 300-bed long-term care facility specifically for Kentucky's elderly veteran population. There is an in-house pharmacy, physical therapy department, barber shop, gift shop, library, and an employee child care facility. The facility officially opened in July, 1991 and began accepting residents soon after. As of September, 1995, the facility is at full operating capacity (290 residents).

**GOVERNMENT OPERATIONS
Budget Reserve Trust Fund**

SOURCE OF FUNDS	Revised FY 1998	Requested FY 1999	Requested FY 2000	Enacted FY 1999	Enacted FY 2000
General Fund					
Continuing Appropriation	200,000,000	200,000,000	200,000,000	200,000,000	200,000,000

The Budget Reserve Trust Fund has a General Fund appropriation of \$200,000,000 in fiscal years 1998, 1999, and 2000. These funds are appropriated and available in the event that actual General Fund revenue receipts during fiscal year 1998 and/or the upcoming biennium are not sufficient to meet the General Fund appropriation levels authorized in the budget.

In the event that these appropriations are not required, i.e., revenue receipts meet or exceed the revenue estimates for the current fiscal year, the \$200,000,000 would be available in the Fund on June 30, 1998, and carried forward into the 1998-2000 biennium. It is not an additional \$200,000,000 each year.

Two hundred million dollars is approximately 3.4 percent of estimated General Fund revenue receipts in fiscal year 1998.

Policy

Included in the enacted Budget of the Commonwealth (Part X, page 223, House Bill 321, 1998 Regular Session) as part of the General Fund Surplus Expenditure Plan are potential additional appropriations to the Budget Reserve Trust Fund in the amounts of \$20 million in fiscal year 1999 and \$22 million in fiscal year 2000. These additional appropriations are contingent upon certain levels of excess revenues being realized. At the time of publication of the Budget of the Commonwealth document, it is reasonable to expect that all \$42 million will be realized. In addition, Part X, pages 243 and 244, House Bill 321, states "(b) Notwithstanding KRS 48.140 and the provisions of Part X 1. to 5. above, if the total undesignated fund balance in the General Fund in fiscal year 1997-98 and 1998-99 respectively exceeds the total combined General Fund Surplus Plan appropriation amount, there is appropriated in fiscal year 1999-2000 to the Budget Reserve Trust Fund an amount, in addition to the \$42,000,000 above combined appropriation, that enables the Budget Reserve Trust Fund to contain a fund balance up to five percent (5%) of the actual General Fund revenue in fiscal year 1998-99." This language has the potential to add approximately another \$66.5 million (or more) to this fund in fiscal year 2000, bringing the total balance to approximately \$308.5 million.

The structure of the Cabinet for Economic Development is consistent with House Bill 89, KRS 154, as enacted by the 1992 General Assembly.

The governing body of the Cabinet, the Kentucky Economic Development Partnership, consists of 11 voting members and two non-voting members. The 11 voting members are the Governor, who shall be chairman, the Secretary of the Finance and

Administration Cabinet, the Secretary of the Natural Resources and Environmental Protection Cabinet, and eight private sector members representing all facets of the economic development community, who are appointed by the Governor. The Secretary of the Cabinet for Economic Development, nominated and appointed by the Governor, and the Secretary of the Tourism Development Cabinet serve as nonvoting members.

The Mission Statement and the Goals for the Commonwealth's economic development programs as defined by the Partnership's Statewide Strategic Plan for Economic Development are as follows:

To Create More and Higher Quality Opportunities for all Kentuckians by Building an Expanding Sustainable Economy

The five goals are:

- 1) Build and maintain consensus to implement the mission. The economic development strategic plan must be accepted and internalized by all segments of the Commonwealth to succeed.
- 2) Reduce unemployment and increase per capita income. Economic development should emphasize the welfare of all the citizens of the Commonwealth, and an important part of the welfare is a good job and the ability to support one's family.
- 3) Create a globally competitive business environment. Kentucky must be an active participant in the developing world economy.
- 4) Manage resources to maximize return on investment. Investments in economic development must be made in the most efficient and effective manner possible for the plan to have an impact.
- 5) Manage Kentucky's natural resources and cultural assets to ensure long-term productivity and quality of life. Economic development extends to all segments of the economy, including agriculture, tourism, and natural resource based industries.

The primary functions of the Cabinet shall be organized into five major areas: Office of the Secretary, Job Development, Financial Incentives, Administration and Support Services, and Community Development.

The Secretary's Office provides the central coordination and administrative direction for planning and management of the programs and entities within the Cabinet. The Office is responsible for developing plans to assure orderly growth and improved management, to recommend executive actions and legislative measures, and to evaluate budget requests. Funding for the Cabinet's advertising and marketing program is included in this program area.

Policy

Included in the Budget of the Commonwealth budget is \$1,000,000 in fiscal year 1999 and \$2,000,000 in fiscal year 2000 for the United Parcel Service Workers Campus.

The Kentucky Economic Development Partnership Board passed Resolution 97-1 creating within the Office of the Secretary an Office of Coal County Development. The Office of Coal County Development shall promote the Local Government Economic Development program for the purpose of identifying eligible counties for specific projects that enable the counties to provide infrastructure to incoming and expanding business and industry. This is an effort to help diversify the local economies beyond the coal mining industry by creating an environment more conducive to business activity. The Budget of the Commonwealth includes funding in the amount of \$325,000 in fiscal year 1999 and \$320,000 in fiscal year 2000 for the Coal County Development Office.

The Budget of the Commonwealth includes funding for the East Kentucky Corporation to receive a grant in the amount of \$450,000 in each year of fiscal biennium 1998-2000. Also, the Budget of the Commonwealth includes funding for the West Kentucky Corporation to receive \$350,000 in each year of fiscal biennium 1998-2000. This represents the same level of funding as provided to these entities during fiscal biennium 1996-98.

Although appropriated in Economic Development as General Funds, the funding for the East and West Kentucky Corporations and the Coal County Development Office will originate from the Local Government Economic Development Fund prior to any other statutory distributions notwithstanding any statute to the contrary.

The Budget of the Commonwealth also includes an increase to the Advertising Budget in the amount of \$100,000 in each year of fiscal biennium 1998-2000. This will bring the total advertising budget in the Economic Development Cabinet to \$500,000 per year.

The Department of Administration is comprised of two divisions: Administrative Services and Research and Planning. The management of the Cabinet's information resources and office automation system is performed by the Information Resources section, which is attached to the Commissioner's Office.

The Administrative Services Division provides financial data and personnel management, and maintains adequate records for the Cabinet's activities. Budget preparation and management is also a role of the Division.

The Department provides support services to all other departmental units, including all purchasing controls, property management, accounting and budgetary functions, as well as all personnel functions including oversight of training and counseling. The Administrative Services Division is served by two branches: Fiscal Management and Personnel and Payroll.

The Division of Research provides analytical services and economic and community data to support economic development activities in Kentucky. The Division provides services through the General Research branch, the Community Publications branch, the Economic Resources Library, and the Maps and Publications Sales Office.

The General Research branch compiles data and publishes an international trade directory, economic statistics, and general information on Kentucky. Other printed materials include informational handouts on subjects relating to economic development, including business incentives, financing, taxes, labor supply, education and training, and transportation. Original research is also conducted in response to specific requests from within the Cabinet, as well as from industrial prospects, existing businesses, local development groups, and local government officials. These research projects include special tax computations and comparisons, economic impact studies, and detailed economic and community data.

The Community Publications branch compiles and publishes community resource data for approximately 200 communities in the state. The "Resources for Economic Development" booklets are prepared for communities with available industrial sites, as determined by the Site Evaluation Division, Department of Job Development. These booklets are used by Cabinet personnel, other state agencies, local economic developers, businesses, and the public.

The Maps and Publications Office, located at 133 Holmes Street, is a sales outlet for U. S. and Kentucky Geological Survey maps and publications, and department publications.

The Department for Job Development is responsible for coordinating the recruitment of new industries and businesses to Kentucky. This task includes but is not limited to: compiling research data for prospective sites; targeting and contacting specific industries and businesses outside of Kentucky; meeting and corresponding with business representatives; and, coordinating site location referrals and visits. This process also involves coordinating the exchange of information for specific areas such as financing, training, and regulatory requirements with Cabinet officials, program personnel and local representatives.

A Site Evaluation Division compiles statistical information and other relevant materials such as site maps and listings of available buildings and possible sites for new construction. A Division of Industrial Development contacts and communicates with industrial prospects, both foreign and domestic. Existing contractual offices/agents are located in Japan and Brussels to assist in this endeavor.

Policy

Included in the Budget of the Commonwealth is \$140,000 in each year of fiscal biennium 1998-2000 for foreign trade recruitment. This money is tentatively scheduled to be concentrated in Japan and Europe (existing foreign office sites) and one additional country. Also included in the Budget of the Commonwealth is an additional \$50,000 in each year of the fiscal biennium 1998-2000 to increase the job marketing effort.

The Department of Financial Incentives coordinates all financial and tax credits made available on behalf of business and industry. The Department is charged with the development of new initiatives, as well as streamlining and coordinating existing programs, to see that a balanced, efficient use of state dollars and credits is available for job creation and preservation.

The primary purpose of this Department is to structure financial incentive packages which are most beneficial to either an existing or new business or industry, while ensuring the reasonable and efficient use of state programs. Working in concert to accomplish this mission is the Grants Program Division, Tax Incentive Programs Division, Direct Loan Programs Division, Program Servicing Division, and the Bluegrass State Skills Corporation. The Kentucky Economic Development Finance Authority (KEDFA) through this Department, encourages economic development, business expansion, and job creation by providing financial support for business and industry through an array of financial assistance and tax credit programs.

In accordance with enabling legislation of the 1992 Kentucky General Assembly, the requirements, policies, and intent of each of the following shall be responsibilities of KEDFA:

- The Kentucky Job Development Act (KRS 154.24-010),

- The Kentucky Industrial Revitalization Act (KRS 154.26),
- The Kentucky Rural Economic Development Act (KRS 154.22),
- The Kentucky Industrial Development Act (KRS 154.28),
- The Local Government Economic Development Programs (KRS 42.4582-42.4595),
- The Direct Loan program (KRS 154.20-030),

The Bluegrass State Skills Corporation (BSSC) was established in 1984 by the General Assembly as an independent, de jure corporation to stimulate economic development through programs of skills training to meet the needs of business and industry. The BSSC works with business and industry and the state's educational institutions to establish programs of skills training. The BSSC is under the Cabinet for Economic Development, Department of Financial Incentives in recognition of the relationship between economic development and the need to address the skills training efforts of Kentucky's new, expanding, and existing industries. The current statutory authority for the BSSC is found in KRS 154.12-204 through 154.12-208.

The Enterprise Zone Authority of Kentucky was established in 1982 by the General Assembly to revitalize economically depressed areas of the state. The Department employs staff which serves the Authority and carries out the administrative duties and functions as directed by the Authority. The statutory authority for the Enterprise Zone Authority is found in KRS 154.45-001 through KRS 154.45-120.

Policy

Included in the Budget of the Commonwealth is \$635,000 in non-revenue agency fund receipts in each year of fiscal biennium 1998-2000 for Bluegrass State Skills training grants. This money will originate from the repayments of economic development bond projects and loans and is substituted for General Funds on a recurring basis.

Also included are additional General Funds in the amount of \$119,000 in fiscal year 1999 and \$113,000 in fiscal year 2000 to support House Bill 280, the Skills Training Investment Credit legislation.

Also included are additional agency funds in the amount of \$69,000 in fiscal year 1999 and \$67,500 in fiscal year 2000 to support House Bill 206, the Venture Capital Tax Credit legislation.

Also included are additional restricted agency funds in the amount of \$207,000 in fiscal year 1999 and \$54,000 in fiscal year 2000 to fund the Economic Development Cabinet's layer of the Statewide Geographic Information System.

Also included are additional General Funds in the amount of \$30,000 in fiscal year 1999 and \$31,000 in fiscal year 2000 to support maintenance projects of the Waterfront Development Corporation. This money brings the total recurring General Fund support of this project to \$380,000 in fiscal year 1999 and \$381,000 in fiscal year 2000.

The purpose of the Economic Development Bond program (KRS 154.12-100) is to utilize bond proceeds to leverage private investment to promote the overall economic development of the Commonwealth. This includes, but is not limited to, the development of public projects such as industrial parks, riverports, and tourism facilities.

Unexpended authorization may carry forward to succeeding fiscal years if sufficient debt service is appropriated, according to Attorney General Opinion 81-242.

Policy

The Debt Service for the previously authorized portion of the Economic Development Bond Pool is authorized in the Finance and Administration Cabinet's budget. Included in the Budget of the Commonwealth are additional General Funds in the amount of \$0 in fiscal year 1999 and \$666,000 in fiscal year 2000 as new debt service to support \$7 million in new bond authorization for the Economic Development Bond Program.

The Department of Community Development is responsible for the retention and expansion of existing businesses, entrepreneurship, and community development efforts in Kentucky.

The Department of Community Development includes: the International Trade Division, Small and Minority Business Division, the Division of Business and Entrepreneurship including the Procurement Assistance Branch, the Business Information Clearinghouse, the Business and Technology Branch, the Regulatory and Expediting Center, and the three Regional Offices – East, West, and Central.

The International Trade Division (ITD) is responsible for educating, promoting, and assisting Kentucky companies in becoming more competitive in global markets. In the first year of existence, the ITD has placed great emphasis on trade awareness and

education. Staff has provided assistance to Kentucky companies on trade-related issues and participated in several trade missions. In addition, the division has also provided training to local economic development groups on how to develop trade assistance programs at the local level, thus creating a multiplier effect.

- The Kentucky Agricultural and Commercial Trade Office located in Guadalajara, Mexico, is responsible for promoting the exports of Kentucky manufactured goods, services and agricultural products throughout Mexico. This office is funded and operated as a cooperative effort between the Kentucky Cabinet for Economic Development and the Kentucky Department of Agriculture.
- The Commonwealth of Kentucky Far East Representative Office located in Tokyo, Japan, is responsible for promoting the exports of Kentucky manufactured goods and services throughout Japan.

The Small and Minority Business Division (SMBD) continues to provide a consistent level of technical assistance to Kentucky's small and minority owned businesses. The SMBD offers procurement assistance to minority firms interested in becoming a minority procurement contractor. Financial assistance is provided by the SMBD through the Small Business Administration's 504 Loan program and the Linked Deposit program. The SMBD also offers assistance through the Investment Capital Network program. The Small Business Development Center at the University of Kentucky will continue to receive \$50,000 each year to assist with these program activities.

The Regulatory Expediting Center (REC) serves as a business ombudsman for addressing regulatory issues encountered within the Kentucky business community.

The Division of Business and Entrepreneurship (DBE) provides the following services:

- The Business Information Clearinghouse (BIC) provides licenses and permitting assistance to new and expanding Kentucky businesses. They are funded by a \$10 General Business License fee of which \$1 is maintained by the Revenue Cabinet, which collects the fee.
- The Kentucky Procurement Assistance Program (KPAP) provides technical assistance to the businesses in procuring federal and state government contracts.
- The Business and Technology Branch (BTB) in cooperation with other entities such as businesses, universities, and other government agencies seeks to identify and coordinate the distribution of technological information. A major portion of resources in this branch is targeted toward providing and building business networks to enhance the efficiency and productivity of Kentucky businesses. Networks are created to address business profitability and competitive issues such as supplier chains, exporting and trade, ISO9000 and advancements in technology.

The three Regional Offices, East, West, and Central, focus on the retention and expansion of Kentucky's manufacturing and value added business base. These offices offer the only statewide industry visitation program. Through this program, staff assist Kentucky's business and industry base with expansion issues and address potential issues that affect competitiveness. Assisting communities and local economic development groups with infrastructure needs and industrial site development is also a focus for regional staff.

In addition to direct contact with Kentucky companies, the Regional Office staff serve as a business advocate to state and local retention efforts through programs such as the Kentucky Expansion and Existing Business Program (KEEP) and Community Assessment Team Visits.

Policy

Additional General Funds are included in the Budget of the Commonwealth in the amount of \$52,500 in fiscal year 1999 and \$60,000 in fiscal year 2000 to increase the Economic Development Cabinet's international marketing efforts.

Also, as a matter of policy, the Budget of the Commonwealth deletes \$700,000 in General Fund supported grants from the Division of Entrepreneurship and has redirected this money to fully fund the other on-going operations of the Economic Development Cabinet.

In enacting House Bill 940, the Kentucky Education Reform Act (KERA), the 1990 General Assembly provided for a reconstituted Department of Education to implement KERA along with other existing programs. A comprehensive study of the Department and its goals and duties was undertaken and a major reorganization was effected as of July, 1991. As a consequence of House Bill 940, the Department of Education is headed by an appointed Commissioner of Education selected by the Kentucky Board of Education.

The Department of Education consists of the following major program areas: Executive Policy and Management; Management Support Services; Learning Results Services; and Learning Support Services.

The 1990 General Assembly enacted House Bill 940 which created a new mechanism for providing state support to local school districts. The Support Education Excellence in Kentucky (SEEK) program replaced the Minimum Foundation Program as well as the Power Equalization program.

Under the SEEK financing program, the state sets a fixed base guarantee amount (\$2,756 in fiscal year 1998) per student in average daily attendance. The amount of revenue per pupil guaranteed by SEEK is then adjusted in each local school district to reflect a set of factors that affect the cost of providing services to pupils.

- An adjustment (currently an additional 15 percent revenue per pupil) is made to reflect the higher than average costs associated with educating at risk/economically deprived students.
- The per pupil guarantee is also increased by the cost of providing services for exceptional children, based on a series of weights designed to reflect the additional costs of providing services to different categories of pupils. The costs associated with exceptional children are based on the count of pupils with different disabilities, a state-determined exceptional pupil-teacher ratio for each disability or service, and a resulting state-determined per pupil cost.

The per pupil guarantee is also supplemented by the costs determined under the pupil transportation calculation procedures.

With regard to the equalization component of the SEEK program, every local school district is required to levy a minimum equivalent local tax effort of 30 cents per hundred dollars of assessed valuation. This tax level may be attained via local property taxes, available alternative taxes (occupational, utility, or income/excise), or any combination thereof. The yield from this tax effort serves as a deduction against the revenues guaranteed under SEEK. This results in a greater proportion of the per pupil revenues being provided by the state in those districts with lower property wealth per pupil.

Those districts which choose to impose taxes sufficient to generate revenues up to 15 percent beyond those generated under base SEEK are eligible for additional revenues from the state equal to the additional local revenue generated equalized at 150 percent of the statewide average per pupil equalized assessment. The local tax increase under this provision -- known as Tier I -- is not subject to voter recall. Additionally, local school districts, upon a majority vote of eligible voters, may raise up to an

additional 30 percent in local revenues beyond base SEEK and Tier I to support their education program. This provision is known as Tier II. These funds are not matched by the state.

The SEEK program also includes an equalized facilities support component (Facilities Support Program of Kentucky) for the purpose of providing a supplemental funding source for each local school district to finance school building/renovation projects and/or debt service expenditures. To qualify for participation, a district must levy a minimum equivalent tax rate of five cents per hundred dollars of assessed valuation. Only revenue generated by this tax which is actually used to finance capital construction projects or debt service on bonds is equalized by the state under SEEK. Such revenue is also equalized at 150 percent of the statewide average per pupil equalized assessment.

Policy

The budget as enacted by the 1998 General Assembly includes funding to increase the basic SEEK per pupil guarantee amount from fiscal year 1998's \$2,756 to \$2,839 (a three percent increase) in fiscal year 1999 and to \$2,924 (an additional three percent increase) in fiscal year 2000. The enacted budget is sufficient to accommodate the Department of Education's projected number of pupils in average daily attendance: 575,254 in both years of the 1998-2000 biennium. Funding is included to cover the additional costs associated with educating at-risk and exceptional children. Also included is funding to provide every school district with at least the same amount of state SEEK funding per pupil in both years of the 1998-2000 biennium as was received in fiscal year 1991-92 (a "hold-harmless" guarantee).

The 1998 General Assembly enacted House Bill 469 requiring local school districts to increase their certified personnel salary schedules in each year of the 1998-2000 biennium. The increase must equal, at a minimum, the lesser of either the increase in base SEEK per pupil funding each year or the increase in the Consumer Price Index between the two most recent calendar years. The Consumer Price Index increase between calendar 1996 and 1997 was 2.3%; therefore, local salary schedules will increase by at least that amount for fiscal year 1999.

The 1998 General Assembly, in enacting House Bill 321 (1998-2000 Executive Budget Appropriations Act), provided that any excess SEEK funds available after fully funding base SEEK in either fiscal 1999 or fiscal 2000 will be allocated in the following manner: forty percent devoted to fully funding the SEEK adjustment factors (exceptional pupils, at-risk pupils, home and hospital pupils, and pupil transportation) and sixty percent devoted on an average daily attendance basis to those school districts providing full-day kindergarten.

The enacted budget includes \$120,236,800 in fiscal year 1999 and \$118,834,100 in fiscal year 2000 to provide Tier I equalization funding. This funding is projected to be sufficient to equalize local revenues raised under this program at a level of \$410,000 of assessed valuation per student (150 percent of the projected statewide average per pupil assessment during the 1998-2000 biennium.) The enacted budget incorporates the Revenue Cabinet's estimated growth in statewide assessed valuation of 4.4 percent for fiscal 1999 and 4.8 percent for fiscal 2000.

The Budget of the Commonwealth includes funding for pupil transportation of \$174,743,900 in fiscal year 1999 and \$189,859,500 in fiscal year 2000. The General Assembly, via House Bill 321, authorized the expenditure of up to \$1.1 million in pupil transportation funds each year of the 1998-2000 biennium to supplement the appropriation (within Learning Results Services) for revising and implementing a new student assessment mechanism.

The enacted budget continues the "deduct" (a factor of .3) to be applied against the \$2,839 and \$2,924 per pupil guarantee amounts each year of the 1998-2000 biennium in those instances where a pupil spends a portion of the school day at a state-operated vocational center. The deduct is applied for that portion of the school day spent at the state-operated center.

The enacted budget increases state support for the Facilities Support Program of Kentucky to \$43,150,300 in fiscal year 1999 and to \$41,137,800 in fiscal year 2000. This funding level is projected to be sufficient to equalize local district revenues raised under this program at a level of \$410,000 of assessed valuation per student.

The Budget of the Commonwealth provides funding of \$19,623,000 in fiscal year 1999 and \$20,545,000 in fiscal year 2000 to reimburse state-operated vocational facilities for the costs incurred in providing course offerings to students from local school districts. Funding for vocational transportation is provided at a level of \$2,278,000 in fiscal 1999 and \$2,346,000 in fiscal 2000.

Included within the totals budgeted for the SEEK program area is \$230,600,000 in fiscal year 1999 and \$238,870,000 in fiscal year 2000 for the teachers' retirement employer match on behalf of local school district certified personnel.

House Bill 940, enacted by the 1990 General Assembly, provided for the appointment of a Commissioner of Education by the Kentucky Board of Education to serve as the chief state school officer.

The Commissioner of Education's qualifications and compensation are set by the Kentucky Board of Education. The Commissioner serves at the pleasure of the Board. The Commissioner is responsible for carrying out all duties assigned by the legislature, for executing education policy as directed by the State Board, and also directs the work of all persons employed by the Department of Education.

The 1990 General Assembly, in enacting House Bill 940, provided for a new Kentucky Board of Education consisting of 11 members appointed by the Governor and confirmed by both houses of the General Assembly; the Executive Director of the Council on Higher Education serves as an ex-officio non-voting member. Seven members represent each of the state's Supreme Court districts while four members represent the state at large. Each appointed member serves a four-year term. Terms are staggered and new appointments are submitted to the General Assembly for confirmation.

Overall policy regarding public elementary and secondary education in Kentucky is set by the Kentucky Board of Education within the legal framework established by the General Assembly.

The Office of Legal Services provides in-house legal services for the Commissioner of Education, all offices of the Department of Education, the Kentucky Board of Education, and the Education Professional Standards Board. The Office of Legal Services provides legal representation for the Department of Education and the two boards before administrative agencies and courts of law. Additionally, it provides informal legal advice to local school districts and members of the general public.

Policy

The enacted budget includes \$50,000 in funding in fiscal year 1999 for updating the Kentucky School Laws book which is distributed to local school districts, education administrators and policy makers. The update will reflect actions of the 1998 Regular Session of the General Assembly.

The Division of Management Assistance is responsible for implementing the Management Assistance Program as well as monitoring participating districts' progress in complying with relevant statutes and regulations governing the delivery of educational services. The Management Assistance Program is designed to improve the management and operations of school districts with substantial documented deficiencies. The Kentucky Department of Education, under the auspices of the Kentucky Board of Education, identifies districts most in need of management assistance based on a review of the districts' operations. The factors reviewed include but are not limited to: planning, maintenance, and operations of physical plants; maintenance and operation of student transportation; personnel administration; governance and executive leadership; fiscal management; professional performance, staff development and evaluation; and community relationships.

The Division of Management Assistance works with targeted districts to develop improvement plans to correct identified deficiencies and monitors implementation of the plans.

Management Assistance Teams provide consultative services to participating districts on how to improve efficiency and overall management operations.

The Division of Management Assistance also operates an Exemplary District Partnership program which facilitates district-to-district partnerships designed to promote the adoption of outstanding and innovative practices among school districts.

The Division of System Support Services is responsible for design, development, and ongoing support of computing capabilities and communications systems to support the Kentucky Education Technology System (KETS) as well as internal Department of Education systems.

The Division of System Support Services is responsible for: statewide KETS and Local Area Network Design; installation, upgrades, and maintenance of KETS network components; district/school network management and testing; and evaluations of all KETS hardware and network components. Finally, this division has a number of responsibilities regarding operation of Department of Education information and office systems.

The 1990 Education Reform Act provided for the establishment of a Kentucky Education Technology System (KETS). State funds for the development and implementation of KETS are appropriated to the Department of Education. These funds are then transferred during each fiscal year to the Education Technology Trust Fund where they are administered and invested by the Finance and Administration Cabinet. Funds from the Education Technology Trust Fund are withdrawn and expended based on guidelines established by the Education Technology Master Plan and in accordance with the various statutes governing this program.

Policy

The enacted budget includes support for education technology as one of four components of the Surplus Expenditure Plan (separate document). If General Fund receipts from fiscal year 1998 exceed official projections by \$289.1 million, \$25.7 million will be available to the School Technology Projects Fund in fiscal year 1999. If General Fund receipts from fiscal year 1999 exceed official projections by \$161.4 million, an additional \$71.6 million will be available to the School Technology Projects Fund in fiscal year 2000. Any excess receipts from fiscal 1998 beyond \$289.1 million will be distributed to the School Technology Projects Fund along with the other components of the Surplus Expenditure Plan; 44.36 percent of any such additional receipts will accrue to the benefit of school technology. To the degree any funds above the \$25.7 million are made available due to excess surplus in fiscal 1999, the biennial total for school technology is not to exceed \$97.3 million (\$25.7 million plus \$71.6 million) for the fiscal 1998-2000 biennium.

The funds available for education technology by means of the Surplus Expenditure Plan will be utilized in combination with the \$15 million appropriated each year for the Kentucky Education Technology System (KETS) directly within the Department of Education budget as displayed above. Assuming receipt of the full \$97.3 million from the Surplus Expenditure Plan as well as discounts for networking and related services from the federal Universal Service Fund, the total available for education technology is anticipated to fully fund the state effort necessary during the 1998-2000 biennium to complete the KETS project as originally envisioned and defined in the Education Technology Master Plan implementation schedule. This also assumes local school district matching of the above state-financed effort.

The above fund sources (including the anticipated Universal Service Fund discounts) will be devoted to meeting the remaining KETS projected unmet need of \$298 million as of June 30, 1998.. All funds available will be devoted to the three major aspects of the remaining need: 1) acquisition of one high-performance, networked computer for every six of the estimated 623,600 students in average daily membership in Kentucky's schools; 2) acquisition of one high-performance, networked computer for each of the estimated 44,600 teachers and school staff throughout Kentucky; and 3) full wiring for each of the 1,400 schools and 37,800 classrooms throughout the state to accommodate voice, data, and video with access to the instructional network, Internet, and e-mail.

Additional information regarding the Kentucky Education Technology System and the School Technology Projects Fund can be found in the accompanying "Surplus Expenditure Plan" document.

The Division of Financial Services serves as the Department of Education's internal financial center with primary emphasis on purchasing and accounting functions. The Division serves as a liaison to vendors as well as other state and federal agencies. This Division also disburses funds to local school districts on behalf of the Department.

The aggregated employer matching contribution on behalf of those Department of Education employees belonging to the Teachers' Retirement System is budgeted within and administered by this Division.

The Associate Commissioner for District Support Services reports to the Commissioner of Education through the Deputy Commissioner for Management Support Services. The Associate Commissioner is responsible for directing the work of and providing policy direction to the following divisions: Finance; Facilities Management; Pupil Transportation, and School and Community Nutrition.

Policy

The budget as enacted by the 1998 General Assembly provides funding – \$200,000 in General Funds each year of the 1998-2000 biennium – for the establishment of a School Audits branch. This new unit will work with local school districts, independent auditors and the State Committee for School District Audits to, among other activities, more effectively monitor and review the local school district annual audit process. The new audit branch will conduct follow-up findings and work to develop “Best Practices” guidelines and other management tools for local districts. Staff of the new branch will also work with local district staff in implementation of the new double-entry, fund-based local district accounting system and associated software.

The Division of Finance's objectives include: the provision of technical assistance to 176 local school districts on matters of budgeting, accounting, reporting and composing salary schedules; distribution of state SEEK funds to local districts; providing guidance in planning the financing of local school building construction and providing other financial management and accounting assistance.

The Division of Finance, through the Out-of-District program, provides funds to defray the costs of educating students placed through the courts or appropriate state agencies in treatment programs outside the school district where their parents or guardians reside.

The State School Audit Committee is provided funds to reimburse the state share of the cost of the annual audits of various local school district accounts. These funds are budgeted within the Division of Finance, which also receives, reviews, analyzes, and corrects any exceptions noted in the audits.

The Division of Finance has responsibility for administering the program, providing qualified and participating local school district employees with health and life insurance coverage.

Policy

The enacted Budget of the Commonwealth includes General Fund current year appropriations of \$35,000 for Child Assault Prevention Programs as well as \$2,300,000 to support the Literacy Development Grant Program Fund as established by Senate Bill 186.

The enacted Budget of the Commonwealth includes increased General Fund support for the Out-of-District program. This program assists with the cost of educating children living in state day treatment and residential facilities as well as children/students residing in private care facilities. Funding will increase from fiscal year 1998's \$9,500,000 to \$10,800,000 each year of the 1998-2000 biennium. Included within those amounts is \$50,000 each fiscal year to establish a day treatment pilot program. Note: funding related to the establishment of new day treatment/education programs mandated by the 1996 General Assembly is budgeted within the Department of Juvenile Justice within the Corrections Cabinet; enacted funding is \$1,500,000 in General Funds each fiscal year of the 1998-2000 biennium.

The budget as enacted by the 1998 General Assembly includes \$23,643,000 in General Funds in each year of the 1998-2000 biennium to continue state support for the P-8 textbook/instructional materials program.

The enacted budget includes General Funds – \$213,841,000 in fiscal year 1999 and \$227,767,500 in fiscal 2000 – to provide health insurance coverage for local school district employees. The enacted budget also includes \$3,002,500 in fiscal 1999 and \$3,029,500 in fiscal 2000 to provide life insurance coverage for local school district employees.

The General Assembly added General Fund support – \$256,400 in each fiscal year of the 1998-2000 biennium – within the enacted budget to accommodate the expansion of retirement benefits for classified employees of local school districts (HB 36).

The General Assembly added General Funds in the amount of \$150,000 each fiscal year of the 1998-2000 biennium for three literacy and direct instruction demonstration projects in Jefferson County.

Note: The budgeted amount for state support of local school district audits, within the Local District Programs expenditure by unit area, for fiscal year 1999 represents a continuation level of funding. Although the budgeted amount for this function in fiscal year 2000 was inadvertently reduced, a continuation level of funding for this function in fiscal year 2000 will be made available through technical adjustments in other program areas or by other means.

The Division of Facilities Management reviews, oversees, and approves all new buildings, additions, and alterations of existing public school buildings. This division also provides guidance in preparing each local district's facility plan and assists in updating and amending district plans. The Division of Facilities Management also compiles information concerning construction needs each biennium for use by the School Facilities Construction Commission.

The Division of Pupil Transportation provides technical assistance as well as regulatory and coordination services to local school districts to facilitate the safe and efficient transporting of pupils to and from school. The Division also sets forth the procedures for centralized purchasing of school buses through established price contract agreements. Additionally, the Division provides training for instructors, bus inspectors, and drivers.

Note: Funding (\$721,000 in General Funds in fiscal year 1999 and \$742,500 in General Funds in fiscal year 2000-the combined amounts for "Deaf/Blind Travel" and "Residential Services" above) for weekend trips home by students of the Kentucky School for the Blind and the Kentucky School for the Deaf is now budgeted within this program area. The funding was formerly budgeted within the Exceptional Children Services Program within Learning Support Services/Special Instructional Services.

The Office of Curriculum, Assessment, and Accountability is responsible for developing and implementing a performance-based, learning-driven assessment program which will clarify performance expectations for students, and focus curriculum, instruction and professional development on Kentucky's student academic expectations. The primary strategies to achieve this office's mission are as follows: developing the student assessment program; developing tasks to support the academic expectations; enabling local educators to develop and conduct their own assessments; interpreting the results and using the information to change learning methods and activities.

The Office consists of the following divisions: Associate Commissioner; Assessment Development; Assessment Implementation; and Curriculum.

This division provides technical assistance to local schools and districts through the following:

- implementation and administration of the Kentucky Instructional Results Informational Systems (KIRIS) assessment at the currently mandated grades of 4, 5, 7, 8, 11, and 12;
- supervision and support of the student testing contractors and subcontractors;
- technical assistance in establishing continuous assessment strategies to all school districts;
- coordination of Kentucky's participation in the National Assessment of Educational Progress (NAEP);
- staff development activities that facilitate the implementation of performance-based instruction and assessment; and
- field testing, with the Assessment Development Division, of performance-based assessments.

The Kentucky Education Reform Act (KERA) directed the Department of Education to administer a statewide performance-based student assessment test. After seven years of development and refinement of the assessment, the 1998 General Assembly passed House Bill 53 effectively changing the name to the Commonwealth Accountability Testing System (CATS) and added the following components:

- a normed component;
- a technically sound longitudinal comparison of the same students;
- reduced writing portfolio time;

- open response or multiple choice testing items or both;
- arts performance events for schools with competitive programs; and
- a simplified, fairer accountability system.

As a part of the new system , teachers will participate in test development, there will be validity and reliability checks conducted by a panel of national experts, and oversight by a committee of legislators who will review the regulations developed by the Department relative to the test.

Policy

The enacted budget reduces the amount of General Funds to \$7 million each year of the biennium for the continued development/modification based upon identified need for improvement and implementation of the performance-based student assessment test. However, language was added to House Bill 321, Part IX, Special Provisions, allowing the transfer of funds from the pupil transportation component of the SEEK Program if there is an insufficient amount “to meet the costs of the testing program.” It further states that the total cost of the assessment program shall not exceed \$8.1 million in each fiscal year.

The Curriculum Division developed the curriculum framework based on the academic expectations mandated by the Kentucky Education Reform Act (KERA). The Division now provides guidance and support to schools by:

- developing curriculum aligned with academic expectations and standards and assessments; and
- providing resource information that enhances classroom instruction, such as course outlines and instructional units.

The Curriculum Development Division also coordinates textbook and instructional materials services for the Department of Education and local school districts.

To help accomplish the above goals, the Division utilizes staff and program support associated with the Regional Service Centers.

Regional Service Centers serving different areas of the state provide training and technical assistance to districts on implementing the Kentucky Education Reform Act programs. The Centers offer services in the following areas: curriculum alignment and assessment, preschool and primary school, instructional technology, school-based decision making, and family and youth services. In addition to providing services directly to the districts, the Centers ensure that teachers are receiving needed professional development training. In so doing, the Regional Service Centers work closely with educational consortia to ensure that training being provided is relevant and responsive to the teacher's needs.

The Division of School Improvement supports and provides technical assistance to schools that fail to achieve expected performance levels and provides rewards to schools that achieve higher than expected performance levels on the statewide student test/accountability assessment as reconstituted by House Bill 53 enacted by the 1998 General Assembly.

Commonwealth School Improvement Fund/Highly Skilled Educators - Based on the existing accountability index and accompanying baselines/thresholds (derived from 1997 and 1998 KIRIS test scores and non-cognitive data such as dropout rates compared to the average of 1995 and 1996 test scores and non-cognitive data), schools will be assessed in the fall of 1998 (using the KIRIS exam for the final time). House Bill 53 establishes a formula by which a determination will be made as to schools eligible for special state assistance. This assistance will take the form of a grant from the Commonwealth School Improvement Fund and development of a school improvement plan as well as the services of Highly Skilled Educators (formerly Distinguished Educators).

School Rewards - As part of the Kentucky Education Reform Act, the 1990 General Assembly established a School Rewards program. Appropriations have been made during each biennium since 1990-92 to the Successful Schools Trust Fund. It is estimated there will be approximately \$36 million in the fund at the end of fiscal year 1998. Distribution of rewards to local schools is based on policy set forth by the 1998 General Assembly in House Bill 53.

Policy

Due to the enactment of House Bill 53, rewards to staff in improving schools will be distributed in the amount of \$27 million. Schools which are exceeding their baseline, based upon the 1997-98 KIRIS results, will receive an award amount and schools exceeding their goals will receive twice the amount.

The enacted budget adheres to current policy of limiting the salary supplement for Highly Skilled Educators to 35 percent of their annual salary for each year of service in that capacity. This salary supplement is not to be included in the total salary compensation calculation for any cost-of-living adjustment or retirement benefits to which the employee may be entitled.

The enacted budget provides General Funds for the personnel costs of the 49 Highly Skilled Educators currently employed by the Department of Education. (This includes \$225,000 in each fiscal year for those educators currently being funded with Title I School Improvement Funds, the five educators on sabbatical and working in the Department, as well as the part-time trainer all currently being funded from various sources in the Department.) In addition, the General Assembly appropriated \$1,643,000 in fiscal year 1999 and \$1,607,000 in fiscal year 2000 to fund the personnel, training, and travel costs of approximately 17 new Highly Skilled Educators during the 1998-2000 biennium.

The enacted budget (House Bill 321, Part IX, Special Provisions) states that \$3 million shall be transferred from the Kentucky Successful Schools Trust Fund "to fund grants to schools in which the proportion of successful students declined in the 1996-97 and 1997-98 school years." Additional restricted funds have been appropriated in fiscal year 1999 in order to effect the transfer.

The Deputy Commissioner and associated support staff provide policy and administrative direction for the Learning Support Services major program area. The Deputy Commissioner reports directly to the Commissioner of Education.

Policy

The enacted budget includes \$5 million in General Fund support for fiscal year 1999 and \$10 million in General Fund support for fiscal year 2000 for the development and implementation of a Safe Schools initiative pursuant to House Bill 330 enacted during the 1998 Regular Session of the General Assembly. The enacted funding will permit the establishment of the Center for School Safety to study school safety, train school personnel and carry out pilot projects to combat violence in Kentucky schools. Additionally, it is envisioned that the Safe Schools initiative will include grants to local schools and districts to reduce classroom disruption and promote school safety. The grants will focus on comprehensive planning to deal with school safety and discipline issues and also emphasize parental and community engagement. Finally, the safe schools initiative will stress the development of day treatment programs through intensive educational and therapeutic components.

The following language was enacted in Part IX, Special Provisions of House Bill 321: "Notwithstanding Section 7 of 1998 House Bill 330, or any statute to the contrary, not more than twenty percent (20%) of the funds appropriated in fiscal year 1998-99 for safe schools initiatives shall be utilized to support the operations of the Center for School Safety and not more than ten percent (10%) of the funds appropriated in fiscal year 2000 shall be utilized to support the operations of the Center for School Safety.

The remaining funds for fiscal year 1999 shall be distributed as grants to local school districts by the Kentucky Department of Education for the purposes of supporting appropriate alternative education programs based on qualitative criteria and guidelines established by the department. The remaining funds for fiscal year 2000 shall be distributed by the Center for School Safety based on an application process established by the Center, in collaboration with the Kentucky Department of Education, and approved by the board of directors. At a minimum, the application process shall include eligibility guidelines and funding levels for grants; the process shall include as first priority those programs applying for alternative programs. Other programs which may receive funding include community-based programs; intensive academic intervention programs; programs utilizing school resource officers; training programs for certified and classified staff, students, parents, and community members; and other violence prevention programs.”

The Primary Education Division is responsible for technical assistance and support to local school districts in implementing the ungraded primary program.

The ungraded primary concept abolishes traditional grade levels, K-3, for the purpose of combining children into multi-age groupings based on their skill level. The important features of the ungraded primary program are as follows: students receive developmentally appropriate instruction; students progress at their own rate without threat of retention; continual assessment of the student by the teacher(s); and team teaching by teachers.

The Kentucky Education Reform Act mandates that school districts provide a half-day preschool program for children considered at risk of educational failure (defined as being eligible for free lunch under the federal guidelines). Districts are also under a federal mandate to provide preschool services to all three- and four-year old children with disabilities. Districts receive federal funding for early childhood programs for handicapped children. The federal funding supplements the funds received for the Kentucky Education Reform at-risk/preschool program. Both components are integrated into one program. Each district is to provide a developmentally appropriate program that includes at least two and one-half hours of preschool instructional programs and a half hour for a meal. Health services are also provided, including vision and developmental screenings, and a routine physical exam.

The federal Head Start grant provides funds to establish a mechanism to ensure coordination between the Head Start program and Kentucky's preschool program.

Policy

The enacted budget provides additional funds of approximately \$650,000 in fiscal year 1999 and \$5.7 million in fiscal year 2000 to fund 15,659 state-eligible children at a rate of approximately \$2,534 per child (an increase of approximately \$40 per child) the first year of the biennium and 16,255 children at a rate of approximately \$2,882 (an increase of approximately \$350 per child).

The School-Based Decision Making Division is responsible for working with local districts and schools to establish effective school councils. This division assists school councils and local boards of education in interpreting the law concerning the powers and duties of the school councils relative to the local board of education, and also helps train and provide technical assistance to council members.

Policy

Part IX, Special Provisions of House Bill 321 as enacted contains the following language: "Notwithstanding KRS 160.345, the parent representatives on the council may not be employees of that school or the district central office, or relatives of an employee of that school, or relatives of a district central office employee, and a local board member or their spouse may not be a parent representative. Notwithstanding KRS 160.345, a teacher who is not a resident of Kentucky may be a representative on the school council."

Also contained in Part IX of the enacted budget is the following: "Each school council shall adopt a policy to be implemented by the principal relating to the procedures to assist the council with consultation in the selection of personnel by the principal, including but not limited to meetings, timelines, interviews, review of written applications, and review of references."

The Division of Professional Development is responsible for administering the principal/superintendent assessment program and staff development, and also provides direction to local school districts in the training of their personnel in the Kentucky Education Reform Act initiatives.

Principal/Superintendent Assessment - All superintendents and principals are required to complete a training and assessment program in order to continue working in the school districts. Programs offered at the Superintendent and Principal Assessment Centers include such topics as management, Kentucky school law, school finance, school-based decision making, and curriculum assessment.

Staff Development - Staff Development is provided to certified school employees on the major Kentucky Education Reform Act initiatives, including school-based decision making, performance-based student assessment, and the ungraded primary. Districts are required to join a consortium with other districts in order to effectively plan staff development activities. Funding for staff development is based on a district's average daily attendance (ADA). The statutes mandate that at least 65 percent of the funds are to be allocated to school councils to plan school-based professional development.

The Division of Professional Development also contains the Gifted and Talented program within the Program Support area.

Policy

The enacted budget fully funds the Gifted and Talented program for fiscal year 2000 with an additional \$581,500 in General Funds. Included in the General Fund appropriation is \$50,000 for the Advisory Council for Gifted and Talented Education. House Bill 321, Part IX, Special Provisions language directs that any expenditure of this appropriation must be recommended by the Council.

The enacted budget will also fully fund the Department's request for the Staff Development grants in fiscal year 2000 with an additional \$1,344,500 in General Funds.

The Division of Student/Family Support Services provides technical assistance to local school districts to increase their awareness of the resources available for at-risk students as well as to offer strategies to improve the coordination of those resources and recommend ways to expand their existing array of resources. This division has responsibility relating to the following: Extended School Services; Family Resource and Youth Service Centers; the Dropout Prevention program; and Community Education.

The Extended School Services program, part of the Kentucky Education Reform Act, provides services to students who need additional instruction beyond the scope of the regular classroom instruction period. Additional instructional services are provided outside of the regular school day, including before and after school sessions, evening and Saturday sessions, and summer sessions. The program instructors may provide direct instruction, tutoring, counseling, and study skill reinforcement.

All local districts receive funding for Extended School Services with part of the allocation based on the district's average daily attendance, and part based upon the level of need as determined by district KIRIS assessment scores, dropout rates, and the number of students eligible for the free lunch program.

Family Resource Centers and Youth Service Centers provide services, or access services from within the community, for children and their parents. Family Resource Centers are intended to serve children who are two through twelve years of age and are located in, or near, an eligible elementary school. The Youth Service Centers are located in, or near, an eligible middle or high school. In order for a school to be eligible for a Youth or Family Center, at least 20 percent of the school's student body must qualify for free school meals (however, all children, regardless of their family's income, may receive services from the Center). The Family Resource Centers are to provide directly, or access from within the community, preschool child care for two and three year olds; after school child care for children who are four through twelve years of age; health services; training for new and expectant parents; and parent-child literacy training. The Centers also provide support to private day care providers. The Youth Service Centers are to provide directly, or referrals for, health and social services; employment counseling, training and placement; drug and alcohol abuse counseling; and mental health counseling.

Appropriations are made to the Department of Education for the Centers and then transferred to the Cabinet for Families and Children (formerly the Cabinet for Human Resources) which provides administrative support and liaison to the local districts and schools operating the Centers.

Dropout prevention services are offered via three main programs. The Appalachian Regional Commission dropout program provides resources to Appalachian counties with high dropout rates for innovative programs to keep students in school. The Job Training Partnership Act dropout program consists of remediation and career development for students at risk of dropping out or who are economically disadvantaged. Kentucky's state-funded dropout program is targeted to districts with high dropout rates and specifically targets students most vulnerable to dropping out.

The Community Education program provides funds to local districts to enable them to offer learning opportunities for persons of all ages, backgrounds, and needs and to facilitate optimal use of schools by the total community.

Policy

Included in Program Services is an additional \$300,000 General Fund in fiscal year 1999 and \$750,000 General Fund in fiscal year 2000 for Community Education Grants. Also, additional General Fund support in the amount of \$300,000 in fiscal year 2000 is provided to support Drop-Out Prevention grants for approximately 23 additional local school districts.

The enacted budget fully funds the Department's request for Extended School Services in fiscal year 2000 to provide an additional \$2.9 million for grants to local school districts. The enacted budget contains a language appropriation of \$50,000 in each year of the 1998-2000 biennium to establish a Community After School program in the Morgan County School district (441). It further directs the establishment of at least three programs focused on children in Grades K-8, and at a minimum, these programs shall be located with the following local school districts: Madison County (365), Menifee County (415), and Morgan County (441).

The enacted budget also includes \$1,082,000 additional General Fund in fiscal year 1999 and \$3,885,000 in fiscal year 2000 for Family Resource and Youth Services Centers. This will provide for approximately 16 additional centers in fiscal year 1999 and 43 additional centers in fiscal year 2000. The Department is authorized to use for administration \$70,400 in fiscal year 1999 and \$74,300 in fiscal year 2000 from the funds appropriated for the centers.

The four subprograms of the Kentucky School for the Blind are Instruction, Residential, Operational Support and Outreach. These subprograms work together to provide instructional and residential programs for students of the School. All four subprograms involve both direct services to students and related services which are necessary to accomplish the direct services.

Instruction and Related Services includes supervision, teaching, supplies, equipment, and clerical services, all of which are needed for the regular instruction of the students enrolled at the Kentucky School for the Blind. Tools utilized are Braille, large

print, electronic aids, and other special aids and methods in the areas of basic academic skills, vocational skills, self-care skills, orientation and mobility, music, physical education, athletics, and counseling.

Residential Services include those services which are needed to provide housing, daily living skills, and leisure time activities for students who reside at the Kentucky School for the Blind in order to participate in the instructional program. This subprogram also deals with transportation arrangements when residential students go home on weekends and at the end of the school year.

Operational Support includes administration, business management, food service, housekeeping, utilities and other operating expenses, maintenance of buildings and grounds, and health care. The positions of Superintendent and Coordinator of Instruction and Related Services are included in this subprogram.

The Outreach program provides consultative, technical and evaluative support to local school districts relating to education of local school students who are blind or visually impaired.

Federal Support includes funds to support federally-mandated services. Funds received under Chapter I of the Education Consolidation and Improvement Act are used to provide services in the areas of speech therapy and basic skills instruction. Federal funds are also used to provide instruction and residential services for deaf-blind children.

The Kentucky School for the Deaf provides educational services to deaf children who cannot be served by local school districts. The School's educational program consists of appropriate classroom instruction, life skills, physical education, and vocational training. Students receive instruction in accordance with their Individual Education Plan which emphasizes language and communication skills development.

Students at the Kentucky School for the Deaf are housed in six campus dormitories and are supervised by houseparents. The students receive practical living skills instruction in such areas as personal safety, hygiene, and independent living skills.

The Kentucky School for the Deaf also supports an outreach program which provides consultative, technical, and evaluative support to local school districts on how to effectively provide educational services to deaf children attending school in a local district.

Policy

House Bill 321, Part IX, Special Provisions, effectively increases the budgeted permanent positions complement by 11.

The Division of Exceptional Children Services provides training to educators who provide services to disabled children and administers the exceptional children federal grant program.

The Division also oversees administration of the federal Individuals with Disabilities Education Act (IDEA) grant which goes to local districts to cover the excess cost of providing a free and appropriate public education to children and youth with educational disabilities.

Training and technical assistance is provided to the state's 176 school districts and 20 agencies that work with students with diverse needs.

Note: Funding for weekend travel home by students of the Kentucky School for the Blind and the Kentucky School for the Deaf is now budgeted as part of the Pupil Transportation Program within Management Support Services/District Support Services.

The General Assembly through the enactment of House Bill 519 passed during the 1998 Regular Session created the Special Education Mentor Program. This new program is designed to select "...the state's most outstanding and highly skilled persons who are certified to teach or administer special education and who are willing to accept assignments in districts whose special education programs are found to be noncompliant with state or federal requirements." The mentor shall be assigned to a district on a full-time or part-time basis for up to two years to assist the staff with creating and implementing its special education improvement plan. A salary supplement of 35 percent of the mentor's base annual salary shall be provided while working in this capacity.

Policy

The enacted budget provides for additional General Fund support of \$200,000 in each year of the biennium for two full-time, or full-time equivalent, Special Education Mentors, pursuant to House Bill 519.

The Division of Secondary Vocational Education provides technical assistance, consultative services, staff development and program monitoring to secondary vocational education programs in local school districts and area vocational education centers.

The Carl Perkins Vocational and Applied Technology Education Act provides for distribution of federal vocational educational funds to local school districts offering approved secondary vocational education programs. The Division of Secondary Vocational Education administers these funds according to guidelines for implementation of the Carl D. Perkins Vocational and Applied Technology Education Act as prescribed in Public Law 98-254.

Funding is provided to districts operating a local vocational school or vocational department within a school to help cover the administrative and operational costs of providing the vocational programs.

The Future Farmers of American (FFA) Camp facility provides training in leadership development primarily to vocational organizations in the summer months. Participants generally spend three to five days at FFA Camp and receive intensive leadership training.

Previously located in the Student and Family Support Division/Program Services Branch, the Jobs for America's Graduates Program is now located under the Federal Programs area of this division. It is designed to assist high schools in meeting the KERA accountability goals in the areas of dropout prevention and successful transition into adult life by specifically targeting at-risk and disadvantaged youth.

Policy

The enacted budget contains additional General Fund grants for the locally operated vocational schools under the Program Services area in the amount of \$200,000 in fiscal year 1999 and \$400,000 in fiscal year 2000.

Also included is \$1 million in General Fund dollars in each year of the 1999-2000 biennium for the Job for Kentucky's Graduates program.

The Division of Program Resources administers many of the Department of Education's federal grant programs.

The Chapter I program provides remedial and supplementary educational services to disadvantaged students who meet at least one of the following criteria: educationally deprived, migrant, neglected or delinquent, handicapped and currently or formerly institutionalized, or confined in a correctional facility.

Chapter II of the Education Consolidation and Improvement Act of 1981 identifies six purposes for which funds must be targeted: programs for at-risk students; programs to acquire and use instructional materials; innovative programs for schoolwide improvements, including effective schools programs; programs of professional development; programs to enhance personal excellence of students and student achievement, and other innovative projects to enhance the educational climate of the school. These funds are provided to the local educational agencies and participating private non-profit schools by a formula established in the federal Chapter II law.

Other grant programs administered by this division include: Drug-Free Schools and Communities program; Dwight D. Eisenhower Mathematics and Science Education Program; and the AIDS Prevention program.

The Office of Teacher Education and Certification has the following responsibilities: monitoring, evaluating, and certifying the teacher education programs at the state universities that prepare teachers; implementing the testing and internship programs for newly hired teachers and principals; issuing, renewing, and revoking teaching certificates. The Office is involved in a number of activities in conjunction with the Education Professional Standards Board in furtherance of the teacher education, assessment, and certification goals.

The Education Professional Standards Board was established by the Kentucky Education Reform Act of 1990. The Board has authority to issue, renew, revoke, and suspend certificates of professional school personnel, and to approve and accredit programs and institutions that prepare educators. The Board also has responsibility for administering the Teacher Testing and Internship program and the Principal Testing and Internship program.

The Division of Teacher Education performs a variety of administrative and consultative functions in support of the other divisions within the Office of Teacher Education and Certification. The Division works to further the development of a system of teacher education in Kentucky which is based on the outcomes-oriented goals of the Kentucky Education Reform Act.

The Division of Teacher Certification provides staff support to the Education Professional Standards Board in evaluating and accrediting the teacher education programs at Kentucky's universities. The Division provides the Board administrative assistance with the issuance, renewal, revocation, and suspension of certificates for school personnel. The Division also assists in auditing personnel assignments in local school districts in the selection of instructional support personnel.

The Division of Testing and Internship administers the teacher and principal internship programs.

Teacher Internship - Beginning teachers are required to successfully complete a one-year internship prior to receiving certification. During the internship, the teacher is supervised and evaluated by a teacher evaluation committee made up of a resource teacher, the school principal of the school where the internship is served and a teacher educator from a state approved teacher training institution. In addition to the internship, the teacher must also successfully complete a written test.

Principal Internship - Beginning principals are required to successfully complete a testing and internship program prior to receiving certification. Applicants are required to pass two exams - a generic test in school administration and a specialized examination on current Kentucky education policies. In addition to the tests, the new principal must also successfully complete an internship program.

Policy

The enacted budget includes additional General Funds in the amount of \$725,000 in fiscal year 2000 to enable the Testing and Internship Division to better accommodate the projected 468 additional interns.

The enacted budget fully funds the request for the Principal Internship Program in fiscal year 2000 with an additional \$185,000 in General Funds in order to accommodate the projected 62 additional interns.

This division was established to increase the percentage of minority educators in the Commonwealth, as well as to help retain those minority educators currently working in education. The Division coordinates its activities with the Educational Professional Standards Board, the Department of Education, the institutions of higher education, and local school districts.

Policy

The enacted budget includes additional General Fund dollars for the Minority Teacher Recruitment Program in the amount of approximately \$800,000 in fiscal year 1999 and approximately \$1.3 million in fiscal year 2000.

The Education, Arts and Humanities Cabinet is charged with preserving Kentucky's heritage, preparing for its future, and promoting a statewide culture of lifelong learning. Each of the agencies in the Cabinet provides or oversees services that contribute to an enhanced quality of life for Kentuckians: excellence in public education, quality libraries, the preservation of historical landmarks, cultural enrichment through the visual and performing arts, and services to the deaf and hard of hearing.

The Kentucky Arts Council was formed in 1965 by Executive Order and confirmed in 1966 when the General Assembly enacted KRS 153.210-235. The purpose of the Council is to develop and promote a broadly conceived state policy of support for the arts in Kentucky.

The Kentucky Arts Council supports, through grants and technical assistance, Kentucky arts organizations, schools, community arts councils and individual artists and craftpersons. These organizations and individuals contribute significantly to the economy, education and quality of life in Kentucky. They play a significant role in creating the positive climate and overseeing services necessary to implement the Kentucky Arts Council mission and plan; the Kentucky Education Reform Act; and Goal 5 of Kentucky's Strategic Plan for Economic Development.

The Council's major programs are: Arts and Cultural Organization Support, Community Arts Development, Arts Education, Crafts Marketing, Individual Artists Recognition and Support, Project Grants, Folk and Traditional Arts Support, and KAC Directories and Honors.

Since 1836, the Society has served as a steward of the Commonwealth's heritage, preserving the wisdom and experiences of Kentuckians which are embodied in artifacts, manuscripts, records, memories and other memorabilia. As an educational institution, its museums and research library are destinations for thousands of students, families, and out-of-state tourists. Outreach services and programs strengthen and provide technical support to hundreds of community museums and history organizations throughout the state.

The Society's mission, pursuant to KRS 171.311, is to collect and preserve for future generations, materials and information regarding Kentucky's past; to disseminate knowledge and understanding of the state's history; and to produce for people of all backgrounds an increased awareness of and appreciation for the Commonwealth and its heritage. To carry out this mandate the agency operates four programs: Administration, Research and Publications, Museums, and Oral History and Educational Outreach.

The 1998-2000 biennium represents a dramatic turning point for the institution. During fiscal year 1999, the Kentucky History Center, a 160,000 square foot museum and research center, will open. Equitable, on-line access to Kentucky heritage information and Society collections will be available. Exhibits and research facilities, more than four times the size of previous ones, are projected to attract two to three times the current visitation. To prepare for this new era, the Society has initiated a number of organizational changes.

The Administration program has an ongoing mission to provide overall agency direction, planning and management. The History Center Director and Deputy Director coordinate and oversee the Center and its operations. New units within the division include: special events, information systems, facilities management, and marketing.

The Research and Publications program has six sub-units: maps and photographs, manuscripts, rare books, *The Register*, *Kentucky Ancestors*, and special publications, including the Governor's Papers and County History series. In preparation for the History Center, the program will: institute an On-line Public Access Catalog (OPAC) for electronic access to research collections; establish a digitizing unit to create electronic copies of fragile historic materials; and co-locate all special collections (photographs, maps, rare books) under one administrative section.

The Museum program uses exhibits and educational programming to interpret the state's history. Six sub-units compose the Museum program. They include educational services, visitors services, traveling exhibits, exhibit design and installation, collections, and military history. Three museums—the Kentucky History Center's "Kentucky History Museum," the Kentucky Military History Museum, and the Old State Capitol—will be operated by the program by the end of fiscal year 1999.

The Oral History and Educational Outreach program includes the Kentucky Oral History Commission, which awards grants to conduct oral history studies, and four sub-units—local history, junior historical society, Kentucky Folklife Program, and historic highway markers. In preparation for the Kentucky History Center the program is initiating the Resource Center for Heritage Education, a collaborative educational outreach initiative intended to promote the use of community history resources in Kentucky's schools.

Policy

Funds are included in the amount of \$2,918,000 in fiscal year 1999 and \$3,268,500 in fiscal year 2000 for personnel and operating costs for the Kentucky History Center.

Also included is \$40,000 in each fiscal year for the restoration of Kentucky graves of Governors, Governors' spouses, U.S. vice Presidents, and First pioneers.

KRS 12.020 provides for the Office of the Secretary, Education, Arts and Humanities Cabinet. The Office, in conjunction with the Governor, is responsible for the development and implementation of statewide education, arts and humanities policy and programs, and provides coordination, direction and management oversight for the agencies within the Cabinet. Within the appropriation unit for the Office of the Secretary are the following:

The Governor's Scholars Program is designed to motivate and empower Kentucky's brightest young people to become effective thinkers and citizen leaders with a zeal for excellence and a mind for innovation. The program provides an intensive residential summer academic and personal growth program for academically talented students about to enter their senior year in high school. The scholars, chosen competitively, spend five uninterrupted weeks in the program on two college campuses.

The Governor's School for the Arts (GSA) is a summer residential program at the Kentucky Center for the Arts for artistically gifted juniors and seniors in high school, serving approximately 160 students during the three-week program. In addition, participating students are invited to attend the annual Kentucky College and Career Day at the Kentucky Fair and Exposition Center. Colleges and universities across the nation recognize the artistic excellence of GSA graduates. Two Kentucky universities offer scholarships to GSA graduates by virtue of their attendance at GSA.

The mission of the Office of Operations and Development is to coordinate and assist in partnership, planning and fundraising activities (federal, corporate, foundation and individual) for the cabinet agencies. Current major programs include the Kentucky History Center, the Kentucky Folklife Festival, the Kentucky Arts Council Foundation, and In Performance at the Governor's Mansion. All of the funds raised must be used for agency purposes only.

The Martin Luther King, Jr. Commission was transferred to the cabinet from the Governor's Office in December, 1996. The Commission is charged with the responsibility to develop appropriate ceremonies and activities consistent with the celebration of Martin Luther King Day in Kentucky.

Policy

Included in the above appropriation is \$40,000 in fiscal year 1999 and \$42,000 in fiscal year 2000 for additional rent, utilities, insurance and security resulting from the Office's move to the Old Capitol Annex. While the office was housed in the Capitol, the Governor's Office paid for postage and telecommunications charges, now the cabinet is responsible for these costs. Also included is: \$4,000 in each fiscal year for operating expenses related to the Martin Luther King Jr. Commission; \$1,221,500 in fiscal year 1999 and \$1,258,500 in fiscal year 2000 for the Governor's Scholars Program; \$318,500 in fiscal year 1999 and \$328,000 in fiscal year 2000 for the Governor's School for the Arts; and \$200,000 in fiscal year 1999 and \$200,000 in fiscal year 2000 for ongoing operational support for the East Kentucky Center for Science, Mathematics, and Technology.

The amount of \$50,000 is provided each fiscal year for the Blue Apple performances of the Amalgamated Producers, Playwrights, Lyricists, and Entertainers, Incorporated. The amount of \$200,000 is provided each fiscal year for operations of the Morehead State University Folk Art Center. The amount of \$40,000 in fiscal year 1999 and \$68,000 in fiscal year 2000 is provided for Kids Ideas and Talents in Education (KITE) in non-recurring funds.

As required by KRS 168, the Kentucky Authority for Educational Television (KET) produces and transmits educational programming for students in public schools, state-supported institutions of higher education, and others desiring broadcast programs. The Authority consists of nine members: the Chief State School Officer, an ex officio member, a staff member of the Department of Education elected by the State Board upon the recommendation of the Chief State School Officer, a representative of the University of Kentucky and a representative of the state colleges and universities elected by the Council on Postsecondary Education and five additional members nominated by the Governor's Higher Education Nominating Committee and appointed by the Governor. Members need not possess special or prescribed qualifications except that they shall be citizens of Kentucky. The term of each member is four years.

KET is divided into three program areas: General Administration and Support, Engineering, and Broadcasting and Education.

KET operates a statewide network of 15 television transmitters and five translators (signal relays). It also operates a satellite delivery system including a four-channel uplink, and approximately 1,700 downlinks at all public schools, colleges, state parks, and many libraries and other public buildings in nearly every Kentucky community. This satellite system also feeds the second Louisville transmitter and several cable systems around the Commonwealth.

Policy

Included in the above appropriation is \$99,000 in fiscal year 1999 and \$59,000 in fiscal year 2000 for professional development programs. Also included is \$75,000 in each fiscal year of the biennium for improved service to the deaf and hard of hearing (closed captioning, etc.). Also included is \$370,000 in each fiscal year for the KET Fund for Independent Productions for matching grants to independent producers within the Commonwealth such as Appalshop and WKYU.

The General Administration and Support Unit oversees the implementation of the Kentucky Educational Television's (KET's) mission as directed by the Kentucky Authority for Educational Television and as mandated in KRS 168. KET was established by the Kentucky General Assembly in the early 1960s for the purpose of supporting educational excellence in the Commonwealth. The agency's mission includes service to citizens of the Commonwealth in the home, in institutions of education, and in the workplace.

This unit recommends and carries out the policies of the Authority in all matters of the agency. These policies are designed to make a positive difference in the lives of individual citizens, in communities of all sizes, and in the Commonwealth as a whole.

The unit organizes and administers the operation of the agency. This includes assurance that the agency is in compliance with pertinent state regulations and federal broadcasting laws. The unit also works to ascertain in as many ways as is feasible the desires of the citizens of the Commonwealth which it serves.

The unit carries out research and planning activities to verify the needs of current and potential audiences. It then works to assure effective, efficient, appropriate service to those audiences. Major areas of agency effort include programs and services in public affairs, K-12 student learning and teacher training, adult basic education, higher education, outreach programs on important state issues, and cultural and performing arts programs.

The unit recognizes that coordination of efforts with other agencies, organization, and institutions is essential to effective service. It works to insure complementing, productive, non-duplicative efforts with groups such as, the Kentucky Department of Education, the Division of Information Systems, the Workforce Development Cabinet, colleges and universities, and all public school districts, to name a few.

The agency has been recognized as the educational telecommunications leader in the Commonwealth. As such, the General Administration and Support Unit also conducts activities which lead to constructive recommendations on current practice and future directions of telecommunications for the Commonwealth. Technologies which the agency currently exploits include broadcast television, microwave transmission, digital satellite communications, two-way video/audio via T1 lines, the Internet, CD-ROM, and extensive videotape distribution.

Broadcasting and Education acquires or produces programs and related support material which will most effectively carry out the mission and policies set by the Authority. This process includes soliciting feedback from appropriate audiences and seeking input from agencies and groups such as the Kentucky Department of Education, the Higher Education Telecommunications Consortium, Kentucky Information Resources Management Commission, etc. The unit daily assembles five channels of television programming (KET broadcast, KET2, and three instructional satellite channels) for delivery to a variety of audiences.

One category of programming is aimed at needs of students at all levels. Instructional programming for elementary and secondary schools directly supports KERA's learning goals and outcomes. The unit produces live interactive distance learning courses designed to provide equal access to a variety of learning opportunities for all students. It also produces KERA-related professional development opportunities for educators throughout the state. It also provides for the delivery of college courses to postsecondary students across the Commonwealth.

Another category of programs is designed to help people in the workplace. Acquired and/or produced programming serves under-educated adults, professionals in need of training, and other citizens with various needs related to their jobs and professions.

The unit also produces a full schedule of programs for citizens at home. This includes educational and public affairs programming and quality arts experiences for all Kentuckians. Some of these programs come from national sources and others are locally produced. A full line-up of educational children's programs offers a quality alternative to commercial television viewing.

A statewide regional support staff of instructional and technical specialists provides training, information, and help with technical issues. This service provided freely to educational institutions and to people in the homes of the Commonwealth.

The Operations staff maintain and operate network master control, studio, and remote facilities. They are responsible for the maintenance of \$15 million worth of equipment at the Network Center. They stay abreast of new technology developments, helping to make their activities increasingly more effective and efficient.

KET's Engineering Services Unit oversees delivery of KET programs and other resources by all appropriate means. It operates and maintains a land-based broadcast network of 15 transmitters and five translators capable of delivering one channel of service into all parts of the state. In addition, KET operates another transmitter in the Louisville area, delivering a second service to the largest metropolitan area in the state and surrounding counties and cable services across the state. The Engineering Service Unit operates all technical equipment to specifications mandated by the Federal Communications Commission.

The unit also operates and maintains the KET Star Channels satellite delivery system comprised of a four-channel uplink at the KET Telecommunications Center and approximately 1,700 receiving dishes at schools, colleges, libraries, state parks, and other public buildings in nearly every Kentucky community. This satellite system also feeds the second Louisville transmitter and several cable systems around the Commonwealth. KET also utilizes T1 telephone lines for two-way teaching and conferencing and the Internet for education and information delivery and interaction.

Engineering works to develop new uses of technologies that can extend the capacity of limited staff and financial resources. It works to interface KET's technical capacities with other appropriate technical systems (i.e., KEWS, DIS, LRC, etc.) in Kentucky and elsewhere, further extending the variety, reach, accessibility, and versatility of KET services to the Commonwealth.

The School Facilities Construction Commission, created by the 1985 Special Session of the General Assembly (KRS 157.611 et seq.), exists to assist local school districts with their school building needs. The School Facilities Construction Commission is responsible for the distribution of available state funds to eligible local school districts which have demonstrated a reasonable local effort to provide adequate school facilities but still have unmet building needs. The Commission is empowered to act on behalf of local school districts to issue bonds in the name of the Commission and to enter into lease arrangements with local boards of education to finance construction of new facilities or major renovation of existing school facilities.

The School Facilities Construction Commission is the successor agency of the Kentucky School Building Authority and is appropriated funds to meet debt obligations for ongoing projects which were authorized by the School Building Authority.

Administration of offers of assistance to local school districts made under the auspices of the Kentucky Education Technology System (KETS) is performed by staff attached to the School Facilities Construction Commission.

Policy

The budget as enacted by the 1998 General Assembly includes new debt service funding in the amount of \$2,621,500 in fiscal year 1999 and \$9,520,000 in fiscal year 2000 to support new local school construction. The enacted budget also authorizes the carrying forward of \$4.2 million in General Funds from fiscal 1998 into fiscal 1999.

The enacted budget reauthorizes \$37.5 million in bonded indebtedness and limits new bonded indebtedness to an amount that can be supported on an annual basis by the amount of appropriated debt service.

Note: Funding (\$1,737,000 in fiscal year 1999 and \$1,904,000 in fiscal year 2000) related to debt service for school facilities projects issued under the auspices of the State Property and Buildings Commission is included within the enacted budget for the Finance and Administration Cabinet in the fiscal 1998-2000 biennium.

In accordance with KRS 163.500 - 163.525, the Commission serves in an advisory capacity to the Governor and the General Assembly concerning policies and programs to enhance the quality and coordination of services for deaf and hard of hearing individuals in both the public and private sectors. Additionally, the Commission oversees the provision of interpreter services to deaf and hard of hearing individuals. The Commission surveys, identifies, and tabulates public and private entities that provide services to deaf and hard of hearing residents of Kentucky for information, referral, and advocacy services. The Commission administers a TDD Distribution program which distributes specialized telecommunications equipment to qualified deaf, hard of hearing, and speech-impaired residents of Kentucky. The Commission cooperates with and assists local, state, and federal governments and public and private agencies in the development of programs for the deaf and hard of hearing. Finally, the Commission reviews legislative programs relating to services to deaf and hard of hearing persons and conducts studies of conditions affecting the health and welfare of the deaf and hard of hearing.

Policy

Included in the above appropriation is \$335,500 in fiscal year 1999 and \$350,000 in fiscal year 2000 for capital outlay to fully establish an Interpreter Referral Service.

The Kentucky Heritage Council provides a comprehensive state historic preservation program through its subprograms: General Preservation Services, Site Identification and Evaluation, Site Development, and Site Protection. The Council administers the National Historic Preservation Program in Kentucky, distributes federal funds, and provides technical assistance to local units of government, planning agencies, state and federal agencies, and local preservation agencies on all aspects of historic preservation. Major program activities include the Survey of Historic Sites in Kentucky, the National Register Program, the Kentucky Main Street Revitalization Program, implementing the Investment Tax Credit Program, and the Restoration Grants Program. The Kentucky Heritage Council is administered in accordance with KRS 171.380.

Policy

Included is \$190,000 in fiscal year 1999 and \$192,000 in fiscal year 2000 for the Council's Heritage Enrichment Programs (African American Heritage Commission, Native American Heritage Commission, and the Kentucky Archeological Survey).

The Kentucky Center for the Arts, which opened in November, 1983 is the Commonwealth's performing arts center. Over 400,000 people attend events at the Kentucky Center each year. It is the performance home of five of the region's finest arts organizations: Kentucky Opera, Louisville Ballet, The Louisville Orchestra, Louisville Theatrical Association, and Stage One: The Louisville Children's Theatre. The Kentucky Center's own programming mission includes encouraging and supporting performing arts, presenting the finest in nationally and internationally renowned artists and presenting the works of Kentucky arts groups and artists.

The Kentucky Center houses three theatres: the 2,479-seat Robert S. Whitney Hall, 622-seat Moritz von Bomhard Theater, and the Boyd Martin Experimental Theatre, which can accommodate 90 to 139 patrons. The facility features a multi-tiered lobby, two rehearsal halls, a 150-seat restaurant and a retail shop specializing in arts-related items and Kentucky crafts. On display in and around the Kentucky Center is one of the nation's finest collections of large-scale 20th-century sculpture. All areas of the facility are accessible to those with physical disabilities, and special services for the hearing impaired and visually impaired are available during performances.

The facility's ongoing mission is to reach out to the entire state with educational programs and artistic events. Since its opening, the Kentucky Center has provided comprehensive statewide arts educational programs which touch students, teachers, parents, and administrators in 120 counties. The Kentucky Center's management also provides a wide range of consulting services throughout the state. Regional, national, and international attention has been drawn to the Commonwealth via "The Lonesome Pine Specials" concert series which is a co-production of the Kentucky Center, Kentucky Educational Television (KET), and the Kentucky Network. This series has reached 72 percent of United States television households via 180 public television stations. The concerts have also been heard on 123 public radio stations and have been seen in eight foreign countries. A wide variety of other cultural and educational programs are also seen on KET as part of the Kentucky Center's outreach efforts.

The role of the Environmental Education Council is to improve the environmental literacy of all Kentuckians. The Council performs this role by sponsoring programs and activities that increase or coordinate environmental education services in the Commonwealth. Those programs and activities include the following:

- Maintaining a clearinghouse of information on environmental education resources available through state and federal agencies and the private sector, and searching for ways to avoid duplication of those services.
- Providing training and leadership development in environmental education for K - 12 educators, including helping them to provide a balanced view of environmental issues, and assisting educators to infuse environmental education more broadly into the curriculum. The Council also provides grants to schools and educational organizations as funds allow.
- Providing opportunities for Kentucky's adult population to become more environmentally aware and to understand not only the problems that exist, but also how each person's actions contribute to the health of the environment.

Policy

Funding is provided in the amount of \$53,000 in fiscal year 1999 to facilitate production of the Council's Master Plan.

The Department for Libraries and Archives serves Kentucky's need to know by assuring equitable access to high quality library information resources and services and by helping public agencies ensure that adequate documentation of government programs is created, efficiently maintained and made readily accessible.

The program is directed by six goals:

- Improve support of people in new organization to create a work environment which fosters productivity and innovation.
- Strengthen the systems and services required to meet the information needs of the people of Kentucky and government employees in our state.

- Improve the recognition of and support for library and archival services in the Commonwealth.
- Improve the management of government records.
- Ensure the creation of adequate documentation of government agency policies, procedures, and transactions in Kentucky.
- Strengthen the position of public libraries as vital resources in meeting the economic, educational, cultural, and recreational needs of all Kentuckians.

This agency is unique in state government as it serves both governmental agencies and the people of Kentucky directly through its local libraries. The agency also serves several distinct customer populations such as the general public, the blind and physically handicapped, institutionalized persons, state government personnel, state and local public agencies, and researchers needing historic public records.

The Kentucky Department of Libraries was created by the 1962 General Assembly. The Department was reorganized in 1973 to include the Division of Archives and Records from the Finance and Administration Cabinet and was renamed the Kentucky Department of Libraries and Archives. Administration of the Library for the Blind and Physically Handicapped was granted to the Department by executive order on June 30, 1975. In 1982, the General Assembly renamed this organization the Department for Libraries and Archives.

The Commissioner's Office sets overall policy and direction for the Department and provides communication advice and support to each division. The Office supports the activities of the state Advisory Council on Libraries, chairs the Archives and Records Commission, serves on the State Information Systems Commission, the Communications Advisory Committee, and the Oral History Commission.

The Administrative Services Division formulates and implements executive direction for policy, procedures, and planning for the Department in accordance with KRS 171.125-171.306 and 171.410-171.740. The Administrative Services Division provides administrative support to all programs of the Department and coordinates and oversees management and administrative functions for the entire agency. The Division includes the Director's Office, Fiscal Operations Office, Personnel and Payroll, Grants and Contracts, Information System Support and Facilities, Space Planning and Shipping. In addition, this division provides administrative support to the Office of the Secretary of the Cabinet and other agencies in the Education, Arts and Humanities Cabinet.

The Division of Field Services provides support to public libraries to improve library service for the citizens of Kentucky. Support includes: direct grants, central service operations, and regional professional consultation. Mandated by law, the Kentucky Department for Libraries and Archives through the Field Services Division gives assistance and advice to public libraries per KRS 171.140; accepts and appropriates funds for providing, improving and equalizing public libraries and providing public library service to state institutions per KRS 171.140; provides books and other reading material to the blind and physically handicapped per KRS 171.145; and provides direct state aid to local public libraries per KRS 171.201.

The Public Library Development Office's professional and technical staff provide consultative and technical assistance to 120 counties concerning public library services and programs of the agency. The staff are located in 14 regional offices, housed in public libraries. This program also supports the central office administration.

The Program Development Office Branch manages the special consultant personnel who provide guidance in adult and children's services. This unit, supported with federal funds, plans and implements statewide programs in collection development; makes available special consulting services to older adults and adults in literacy programs; provides assistance in developing children's programs and selecting their books; awards and monitors cash book grants; and, administers the Certification of Librarians program.

The Kentucky Talking Book Library/Institutions Branch provides special library materials, which are produced in formats for the service clientele, and playback equipment, all of which are circulated to eligible users. Materials which are not produced nationally, but are of special interest to Kentucky Talking Book patrons, are recorded by volunteers and coordinated by central staff. This Branch also provides library materials and professional consultation to state residential institution libraries.

Policy

In fiscal year 1999, \$125,00 is provided for renovation of local libraries: Paintsville/Johnson County, \$25,000; Sandy Hook, \$50,000; and Frenchburg, \$50,000.

The State Library Services Division acts under the provisions of KRS 171.200 to equalize opportunities for library service and access to information and to promote and maintain cooperative arrangements for information and resource sharing among all types of libraries and information centers, including state agencies. Under KRS 171.170, it monitors federal and state grants awarded to libraries to promote cooperative arrangements.

State Library Support is the administrative unit of the Division, providing coordinated program planning and control.

Information Services provides information and research to support the needs of state agencies and backs up requests from public libraries and three information centers for information needed by the citizens of Kentucky but not attainable on the local level. Staff is responsible for the analysis of trends in the informational needs of clientele and for appropriate selection of materials to support these needs.

Through its Audio Visual Unit information services provides a central source for 16mm. films and video cassettes for library programs and supplies materials for the educational and training needs of libraries and state agencies.

Technical Support supplies centralized cataloging, classification and processing of materials for small public libraries, as well as cataloging, processing and collection maintenance needed for the State Library's collections. Records are entered into a national database (OCLC) as well as being maintained for the Kentucky Union Database. This unit serves as a model for quality control throughout the state and supplies training and consulting services to librarians and to state agency personnel involved in the organization of agency collections of reference materials. This Branch also supports the maintenance of the Kentucky Union Database, an electronic card catalog, which is utilized for statewide resource sharing among all types of libraries.

Network Development supports and develops programs and services to enable all of Kentucky's libraries (public, academic, school, corporate, medical, etc.) to share information for the benefits of their users. Principal coordination and direction is provided through the Kentucky Library Network (KLN), administered by this Department.

Kentucky Library Information Center (KLIC) offices provide reference service and respond to all journal requests to public libraries throughout the state. They also supply document retrieval services for state agencies and small members of KLN.

The Public Records Division, working in close cooperation with the State Archives and Records Commission, fulfills the Department's statutory mandate to manage and control public records in the state, in whatever medium. Its authority extends to all state and local government agencies. Under the terms of KRS 171.410-740, the Department's Public Records Division works with government agencies to ensure creation and preservation of adequate and proper documentation of the agency's organizational functions, policies, decisions, procedures, and essential transactions, as well as information which protects the legal and financial rights of the government and of individuals directly affected by an agency's activities.

As required by KRS 171.450, it establishes standards, procedures, and administrative regulations for recording, managing, preserving and reproducing government records, whatever their medium. Under the terms of KRS 171.680, it works with the head of state government agencies and their designated representatives to create and maintain active, continuing programs for the efficient management of their records. Division staff collaborate with agencies on the inventory, analysis, and scheduling for retention of their records and electronic records systems. When approved by the State Archives and Records Commission,

these records schedules furnish public agencies with clear legal authority to make disposition of records they create and maintain. The Open Records Act explicitly recognizes the connection between policy goals for public records management and information systems planning under statute, and those of the Open Records Act.

Under the terms of KRS 171.500, the Department is the central repository for Kentucky public records. The Division operates the State Archives to house and make available for research permanently valuable state and local government records. To provide agencies with secure, economical storage for their non-current records, the Division also manages the State Records Center. While serving distinct needs, these two kinds of facilities are the state's statutorily mandated central records depositories. Division staff also provide state agencies with direct services in records management, archival management, management of electronic records, centralized micrographics and imaging applications, and document preservation. They serve as consultants to these agencies on a range of archival and records management issues.

The Public Records Division serves Kentucky citizens directly, as well as meets the needs of hundreds of government agencies at all levels of government. These services are provided through the following subprograms:

State Records Branch helps 132 state-level agencies and their subunits and more than 300 boards and commissions develop and maintain programs to manage government information from its creation, through maintenance and use, to final disposition, as required by KRS 171.680. It provides archival and records management assistance in support of those tasks, especially through records identification, description, appraisal, and scheduling. It participates in review of all biennial state agency Information Resources Plans (IRP), submitted to the Kentucky Information Resources Management Commission (KIRM). The Branch also manages the two leased facilities which comprise the State Records Center, the state's central repository for secure high volume storage of non-permanent records still needed by agencies, which makes possible significant annual savings to state government through cost avoidance.

Archival Services Branch provides records appraisal, arrangement, description and reference services; oversees archival control of state publications; oversees publication of the Guide to Kentucky Archival and Manuscript Collections; creates and publishes finding aids to provide access to the Department's archival holdings; and makes available on-line information about the Department's holdings and the holdings of nearly 300 Kentucky archival and manuscript repositories. It operates the State Archives, which contains more than 95,000 cubic feet of original records. These records are made available to the public and to government officials through the Archives Research Room. Branch staff annually answers more than 20,000 information requests from government officials, private citizens, attorneys, journalists, historians, genealogists, and other researchers.

Technology Analysis and Support Branch works with other Division Branches in providing advice and technical support to state and local agencies on archival and records management considerations in the application of information technology to their programs and operations. It inventories and schedules electronic records systems and coordinates Division review of all biennial state agency Information Resources Plans (IRP), submitted to KIRM. The Branch provides staff support to KIRM on information policy, imaging and technical standards issues, and ensures that KIRM members and staff are aware of archival and records management issues as they relate to information resources planning and management. It also manages the Department's Public Records Management System (PRMS), the database employed by the Division for the life-cycle tracking of record series. The Branch oversees the work of the Department's Document Preservation Laboratory, including professional consulting, education and training programs, records disaster recovery assistance, and laboratory conservation treatment.

Micrographics Branch provides centralized image management and micrographics services to state and local government agencies, in response to functions mandated by KRS 171.550, on a cost recovery basis. These services help improve and speed access to information, reduce the volume of paper based files, and ensure archival preservation and continued availability of information contained in fragile paper records. The Branch also monitors development in other imaging technologies and their application to public records management.

Local Records Branch helps more than 2,900 local government agencies develop and maintain record management programs to manage government information from its creation through its maintenance and use, to its final and proper disposition, as required by KRS 171.680. It provides archival and records management assistance in support of those tasks, especially through records identification, description, appraisal and scheduling, and through professional counseling and training. It also administers a grant-in-aid program to local governments.

Public Records Support provides policy development, coordination of program planning, and administrative direction of Division programs in public records administration and archival management. It coordinates support for the work of the State Archives and Records Commission and the State Historical Records Advisory Board.

Direct Local Aid is a program designed to identify those services that are directly provided to the citizens of the Commonwealth. The services are administered by three of the Libraries and Archives' current programs: Field Services Division, State Library Services Division, and the Public Records Division. The various direct services provided include direct cash grants, library books and other library materials, and bookmobiles.

There are several grant programs provided by the Department for Libraries and Archives. These include: Public Library Development, State-Aid, Public Library Books, Construction, Networking, and Local Records. Additionally, public libraries are provided with bookmobiles so that those persons not living close to a public library may have the opportunity to utilize library services.

The Public Library Development Office provides grants from federal funds for training, continuing education, demonstration projects and major urban resource libraries to eligible public libraries from federal funds.

The State Aid program provides cash grants to all counties for support of public library services.

The Bookmobile program provides bookmobiles to eligible county libraries based on the criteria of age, service, use, and condition.

The Program Development Office provides grants to public libraries in order to demonstrate library service to specific user or non-user groups. Examples include services to older adults, young adults, children, and adult new readers.

The Construction program matches grants to public libraries for major library building projects and repairs.

The Institutions program provides grants to public libraries for the administration of public library services in state correctional institutions.

The Library for the Blind and Physically Handicapped program provides grants to public libraries in support of library services for the blind and physically handicapped in localized areas of the state.

The Local Records program provides funds to assist local governments to preserve and restore public documents and to improve local government records management programs.

Policy

Included in the above appropriation is \$200,000 in each fiscal year to provide funds for bookmobiles/extension services.

Included in the above General Fund appropriation is \$2,668,500 in each fiscal year to award per capita grants at the rate of 73 cents, notwithstanding KRS 171.201.

The Teachers' Retirement System, as defined in KRS 161.220-161.716, was established in 1940 to provide a broad program of retirement benefits, death and survivor benefits, medical insurance benefits, and disability benefits to its membership.

Administration of the System is the responsibility of the nine-member Board of Trustees. Two of the members are ex-officio, serving by reason of their constitutional offices. They are the Commissioner of Education and the State Treasurer. The remaining seven trustees are elected by the members of the Retirement System for four-year terms. Four of these must be active members of the Retirement System, one must be a retired member, and two must be persons from outside the teaching profession. The Board of Trustees appoints an Executive Secretary who is responsible for the administration of the affairs of the Retirement System under policies established by the Board. The most important objectives of the Board of Trustees are to maintain a retirement system that is actuarially sound and to maintain member benefits at a level that is comparable with the benefits provided other state employees through the Kentucky Employees' Retirement System and the Social Security System.

Membership is comprised of all persons occupying positions in the public elementary or secondary schools for which certification is required. In addition, staff members of Western Kentucky University, Eastern Kentucky University, Morehead State University, Murray State University, Kentucky State University, professional staff of the Department of Education, Cabinet for Workforce Development, faculty members of the School for the Deaf, the School for the Blind, as well as faculty of the state and area vocational schools are members. Membership is mandatory for all persons teaching in the public schools or other institutions covered by the statutes governing teachers' retirement.

Benefits are financed through member contributions, corresponding contributions by the state and income accruing from the invested reserves of the system. The General Assembly has set the member and state contribution rate at 9.855 percent of gross salary. University faculty members contribute 8.375 percent of gross salary and the state matches this amount. In addition, each employer contributes an overmatch of 3.25 percent of gross salary to help reduce the system's unfunded liability. The reserves of the agency are invested in a manner that will provide a reasonable rate of return with major emphasis being placed upon the protection of the reserves.

The employer match for Department of Education, the Cabinet for Workforce Development, and university employees is budgeted within the Department, the Cabinet, and the affected universities and is then transferred to the Teachers' Retirement System.

Funding for the employer match on behalf of local school district members is provided as an adjunct to the Support Education Excellence in Kentucky program (SEEK) within the Department of Education.

Policy

The budget as enacted by the 1998 General Assembly includes General Funds in the amount of \$7.4 million in fiscal year 1999 and \$15.3 million in fiscal year 2000 which, when combined with the automatic one and one-half percent (1.5 percent) increase funded from internal system earnings, will provide a three percent cost-of-living increase for retired members each year of the 1998-2000 biennium.

The enacted budget includes sufficient funding to meet the amortized cost of previously-enacted cost-of-living adjustments and other benefit improvements for system members.

The enacted budget includes General Funds in the amount of \$3,657,000 in fiscal year 1999 and \$7,828,000 in fiscal year 2000 to make initial payments on the amortized cost of increased retirement allowances for those recipients retiring during the 1998-2000 biennium who are eligible to add accrued sick leave to their final year of service. Payments in the amount of \$7,828,000 in fiscal year 2000 will also be made through fiscal year 2014.

The budget as enacted by the General Assembly, in the capital projects section, authorizes the expenditure of \$700,000 in agency funds to purchase an imaging system. The new system will permit the retirement system to convert member and retiree files to optical disk images and will provide a capacity for other administrative uses of this more effective records storage technology.
